BUDGET IMPLEMENTATION REVIEW REPORT**

**FOR THE FIRST QUARTER  
OF  
FY 2022/23**

## FOREWORD

The Office of the Controller of Budget (OCoB) is established under Article 228 of the Constitution of Kenya to oversee budget implementation for both the national and county governments by approving the withdrawal of funds and reporting to each House of Parliament every four months. Specifically, Article 228(6) of the Constitution of Kenya and Section 9 of the Controller of Budget Act, 2016 require the Controller of Budget (CoB) to submit quarterly budget implementation reports for the national and county governments to Parliament within thirty days after the end of each quarter.

In fulfilment of this mandate, I am pleased to present the County Governments' Budget Implementation Review Report (CBIRR) for the First Quarter of the Financial Year (FY) 2022/23, covering July 2022 to September 2022. The report is based on data from the approved county budgets for the FY 2022/23, financial and non-financial performance reports for the first three months of the financial year submitted to OCoB in line with Sections 166 and 168 of the Public Finance Management Act (PFM Act), and data generated from the Integrated Financial Management Information System (IFMIS).

The report examines budget implementation by the forty-seven County governments. It presents the budget performance analysis of the approved budgets, receipts into the County Revenue Fund, exchequer issues, expenditure by major economic classification of Personnel Emoluments, Operations and Maintenance and Development Expenditure, expenditure by programmes, and the absorption of funds against the approved budget allocation. The report also highlights the key issues identified during the period that hampered effective budget implementation during the period and contains appropriate recommendations to address those issues. All 47 County Governments are expected to implement applicable recommendations to ensure effective budget implementation.

The OCoB expects that the publication of this report will help promote the prudent use of public funds and further ensure that information on budget implementation is available to members of the public to enable them to hold the duty bearers to account for the utilization of public funds.

## EXECUTIVE SUMMARY

This report has been prepared to fulfil Article 228(6) of the Constitution of Kenya, 2010, and Section 9 of the Controller of Budget Act, 2016. The report provides information on county governments' budget implementation during the First Quarter of FY 2022/23. It analyses revenue and expenditure performance against annual budget estimates. It is based on financial and non-financial reports submitted by county governments in line with Sections 166 and 168 of the Public Finance Management Act, 2012.

The aggregate approved budget estimates for the 47 county governments for FY 2022/23 amounted to Kshs.478.87 billion and comprised Kshs.160.58 billion (33.5 per cent) allocated to development and Kshs.318.27 billion (66.5 per cent) for recurrent expenditure. The aggregate development expenditure allocation conforms to Section 107 (2(b)) of the PFM Act, 2012, which requires that at least 30 per cent of the budget be allocated for development programmes. To finance the budgets, county governments expect to receive Kshs.370 billion as the equitable share of revenue raised nationally, Kshs.57.01 billion from their own-revenue sources, Kshs.5.65 billion as conditional grants from the National Government, Kshs.23.7 billion from development partners. Further, counties had an unspent cash balance from FY 2021/22, amounting to Kshs.22.51 billion.

The total funds available to the County Governments in the First Quarter of FY 2022/23 amounted to Kshs.98.97 billion. This amount consisted of Kshs.70.34 billion as an equitable share of revenue raised nationally disbursed by the National Treasury (amount included Kshs.29.6 billion in arrears from FY 2021/22), Kshs.22.51 billion as cash balance from FY 2020/21, and Kshs.6.17 billion raised from own sources.

The Kshs.6.17 billion received by county governments from their sources of revenue was 10.7 per cent of the annual target and a decline compared to Kshs.6.76 billion generated in the First Quarter of FY 2021/22. Analysis of own-source revenue as a proportion of the annual revenue target shows that five counties exceeded the first quarter expectation of 25 per cent of the yearly target. These were; - Isiolo (49 per cent), Narok (38.7 per cent), Samburu (33.3 per cent), Vihiga (27.8 per cent) and Nyeri (26.3 per cent). Those with the lowest performance were Nyamira at 4.5 per cent, Bomet at 5.8 per cent, Kilifi at 5.8 per cent, Murang'a at 4 per cent and Kajiado at 3.4 per cent.

To implement county government budgets, the Controller of Budget authorised withdrawals of Kshs.56.30 billion from the County Revenue Funds to the County Operational Accounts. The amount comprised of Kshs.2.32 billion (4.1 per cent) for development expenditure and Kshs.53.98 billion (95.9 per cent) for recurrent expenditure, a decline from Kshs.57.07 billion authorised in a similar period of FY 2021/22.

In the First Quarter of FY 2022/23, the county governments spent Kshs.54.82 billion, representing an absorption rate of 11.4 per cent of the total annual budgets, representing an increase from an absorption rate of 10.5 per cent reported in the First Quarter of FY 2021/22, when total expenditure was Kshs.52.84 billion. Recurrent expenditure was Kshs.52.60 billion, representing 16.5 per cent of the annual recurrent budget, an increase from 15.4 per cent reported in the First Quarter of FY 2021/22. Development expenditure amounted to Kshs.2.22 billion, representing an absorption rate of 1.4 per cent and a decline from 1.9 per cent attained in a similar period of FY 2021/22.

During the reporting period, twenty-four counties did not report any expenditure on development activities, possibly due to the challenges in setting up new county administration after the August general elections. The Counties with the highest proportion of development expenditure to their approved annual development budgets were; - Narok at 9.8 per cent, Vihiga at 9.2 per cent, and Nyamira at 8.8 per cent of budget allocation.

As of September 30, 2022, Counties reported accumulated pending bills amounting to Kshs.161.36 billion. They comprised Kshs.33.98 billion for development expenditure and Kshs.127.38 billion for recurrent expenditure. The Nairobi City County accounted for 62.2 per cent of pending bills at Kshs.100.36 billion. Other counties with high pending bills are Wajir at 5.50 billion, Mombasa at Kshs.4.51 billion and Kiambu at Kshs.4.81 billion. The Mandera County Executive did not report any pending bills.

The Controller of Budget identified several challenges that hampered effective budget execution during the reporting period. These included:- low expenditure on the development budget, which was Kshs.2.22 billion and represented an absorption rate of 1.4 per cent of the county governments' cumulative annual development expenditure budget of Kshs.160.58 billion; under-performance in own-source revenue collection, which was Kshs.6.17 billion (10.7 per cent) compared with the annual target of Kshs.57.01 billion; a high level of outstanding pending bills reported by the county governments that stood at Kshs.161.36 billion as of September 30 2022; delays by the National Treasury to disburse the Equitable Share of Revenue where only Kshs.40.74 billion was disbursed to the counties representing 11 per cent of the annual allocation of Kshs.370 billion; and failure by several Fund Administrators to submit quarterly financial statements to the Controller of Budget.

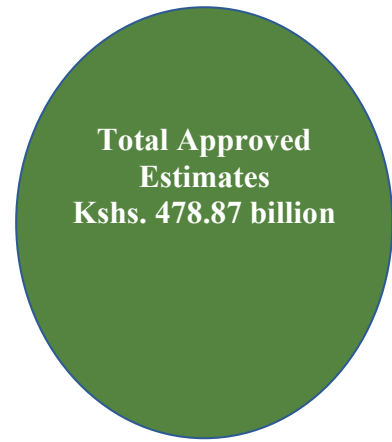

County governments are advised to prioritise the implementation of development projects in FY 2022/23 to improve their citizens' living standards, ensuring that spending on development activities meets the minimum set threshold of 30 per cent of annual budgets. On under performance of their own-source revenues, counties are advised to review their FY 2022/23 revenue targets to confirm that they are realistic and implement strategies to mobilise their revenue collection, including building staff capacity in revenue administration. The Controller of Budget advises county governments to settle all eligible pending bills as a first charge in the FY 2022/23 in line with Regulation 41 (2) of the Public Finance Management (County Governments) 2015. Further, the National Treasury is urged to ensure that the disbursement of the equitable share of revenue is in line with the Approved Disbursement Schedule of the County Allocation of Revenue Act, 2022, to ensure effective budget implementation in the counties. Finally, the County Executive Committee Members responsible for finance are required to ensure to ensure designated Fund Administrators prepare and submit quarterly report in line with the law.

# 1 INTRODUCTION

The Office of the Controller of Budget (OCOB) is an oversight institution established under Article 228 of the Constitution of Kenya, 2010, to oversee and report on the implementation of the budgets of the National and County Governments. Article 228 (6) of the Constitution, and Section 9 of the Controller of Budget (COB) Act, 2016, require the Controller of Budget to submit to each house of Parliament a report on the implementation of the budgets of the National and County Governments for every four months. In light of the above legal requirement, this County Budget Implementation Review Report (CBIRR) is produced and covers the First Quarter of FY 2022/23.

The CBIRR presents the status of budget execution by the county governments. The report analyses information on own source revenue raised, transfers received from the National Government and Development Partners, and the total expenditure of the First Quarter of the financial year (FY) 2022/23. The (CBIRR) is based on quarterly financial reports submitted to the OCOB by County Treasuries in line with Sections 166 and 168 of the Public Finance Management (PFM) Act 2012, data obtained from the Integrated Financial Management System (IFMIS), and information obtained by the OCOB in the course of overseeing budget implementation. The absorption rate is used to measure performance and is computed as a percentage of actual expenditure against the approved annual budget estimates.

The report structure is as follows: Chapter One captures the introduction, while Chapter Two analyses the counties' budget performance during the First Quarter of FY2022/23. Chapter Two also details the performance of each county government's own-source revenue and actual expenditure against the set budget estimates for both recurrent and development expenditure. Recurrent expenditure has been categorised into Personal Emoluments (PE) and Operations and Maintenance (O&M). A summary report on the County governments' pending bills as of September 30th, 2022, is also provided in this chapter.

A detailed report by the individual Counties is provided in Chapter Three. Information on budget performance and the allocations for recurrent and development expenditures, exchequer issues, and actual spending (classified into Employee Compensation, Operation and Maintenance, and Development Expenditure) are also discussed. Programmes and sub-programmes are used to analyse budget execution for each department, and information on development projects implemented in the First Quarter of FY 2022/23 is also covered.

Chapter Four captures a summary of critical challenges observed by OCoB in budget implementation in the First Quarter of FY 2022/23 by each County. The report further provides recommendations to ensure effective and efficient budget implementation and to promote best practices. Finally, Chapter Five offers the conclusion of this report.

## 2 FINANCIAL ANALYSIS OF COUNTY BUDGET IMPLEMENTATION IN THE FIRST QUARTER OF FY 2022/23

### 2.1 Introduction

This chapter presents the financial analysis of aggregated County budget implementation for the First Quarter of FY 2022/23 and covers the period from July to September 2022.

### 2.2 Revenue Analysis

The combined County governments' budgets approved by the County Assemblies amounted to Kshs.478.87 billion and comprised Kshs.160.58 billion (33.5 per cent) allocated to development expenditure and Kshs.318.27 billion (66.5 per cent) to recurrent expenditure.

To finance the budgets, County governments expect to receive Kshs.370 billion as the equitable share of revenue raised nationally, generate Kshs.57.01 billion from their own revenue sources, receive Kshs.5.65 billion as conditional grants from the National Government and Kshs.23.7 billion from Development Partners, while utilising Kshs.22.51 billion unspent cash balance from the previous financial year. The County Governments Additional Allocations Bill, 2022, which provides allocation for conditional grants, had not been approved by Parliament as of 30th September 2022.

#### 2.2.1 Revenue Out-turn

The total funds available to the county governments in the First Quarter of FY 2022/23 amounted to Kshs.98.97 billion, comprised of Kshs.70.34 billion as the equitable share of revenue raised nationally, Kshs.22.51 billion cash balance from FY 2021/22, and Kshs.6.17 billion raised from own revenue sources. The equitable share of Kshs.70.34 billion included Kshs.29.6 billion, which was arrears from FY 2021/22 and was disbursed to counties in August, 2022.

#### 2.2.2 Own-Source Revenue

During the reporting period, county governments generated a total of Kshs.6.17 billion from their own-source revenue (OSR), which was 10.7 per cent of the annual target of Kshs.57.01 billion. The realised OSR is a decline compared to Kshs.6.76 billion generated in a similar period in FY 2021/22. Analysis of own-source revenue collection for July 2022 to September 2022 is shown in Table 2-1

Analysis of own-source revenue as a proportion of the annual revenue target indicated that Isiolo, Narok, Samburu, Vihiga and Nyeri counties achieved the highest percentage at 49 per cent, 38.7 per cent, 33.3 per cent, 27.8 per cent

and 26.3 per cent respectively. Conversely, Counties with the lowest proportion of own source revenue against targets were Nairobi City at 6.6 per cent, Nyamira at 4.5 per cent, Bomet at 5.8 per cent, Kilifi at 5.8 per cent, Murangá at 4 per cent, and Kajiado at 3.4 per cent.

## 2.3 Funds Released to the Counties

### 2.3.1 Funds released from the Consolidated Fund to the Counties

In the First Quarter of FY 2022/23, the Controller of Budget (COB) approved the transfer of Kshs.70.34 billion as the equitable share of revenue raised nationally from the Consolidated Fund to the various County Revenue Funds (CRFs) as per Article 206 (4) of the Constitution of Kenya, 2010. The transferred amounts included Kshs.29.6 billion, which was in arrears from FY 2021/22. A detailed analysis of the released equitable share to each County is provided in Chapter Three.

### 2.3.2 Funds Released to the County Operational Accounts

The COB authorised withdrawals of Kshs.56.30 billion from the County Revenue Funds to the County Operational Accounts comprising Kshs.53.98 billion (95.9 per cent) for recurrent expenditure and Kshs.2.32 billion (4.1 per cent) for development expenditure. This was a decline from the Kshs.57.07 billion authorised in a similar period in FY 2021/22. A detailed analysis of the funds released to each County is provided in chapter three.

## 2.4 Expenditure Analysis

The total expenditure by county governments in the First Quarter of FY 2022/23 was Kshs.54.82 billion, representing an overall absorption rate of 11.4 per cent of the total Annual County Governments' Budget of Kshs.478.87 billion, an increase from an absorption rate of 10.5 per cent reported in a similar period in FY 2021/22, where the total expenditure was Kshs.52.84 billion.

Recurrent expenditure was Kshs.52.60 billion, representing 16.5 per cent of the annual recurrent budget, an improvement from 15.4 per cent reported in the First Quarter of FY 2021/22. Development expenditure amounted to Kshs.2.22 billion, representing an absorption rate of 1.4 per cent and a decline from 1.9 per cent attained in the First Quarter of FY 2021/22 when total development expenditure was Kshs.3.55 billion. The analysis of expenditure by economic classification in the First Quarter of FY 2022/23 is provided in Table 2-2.

A review of cumulative expenditure by economic classification showed that Kshs.43.15 billion (78.7 per cent) was spent on Personnel Emoluments, Kshs.9.45 billion (17.2 per cent) on Operations and Maintenance, and Kshs.2.22 billion (4 per cent) on Development Expenditure. Tana River and Wajir Counties did not report any expenditure during the period, which was occasioned by the failure to approve their budget for FY 2022/23 during the period under review.

### 2.4.1 Development Expenditure

The County governments spent Kshs.2.22 billion on development activities, representing an absorption rate of 1.4 per cent of the annual development budget of Kshs.160.58 billion, which decreased from an absorption rate of 1.9 per cent reported in the First Quarter of FY 2021/22 when development expenditure was Kshs.3.55 billion. Analysis of County budget allocations, expenditures and absorption rate in the period under review is provided in Table 2-3.

The analysis of development expenditure shows that twenty-four counties did not report any spending during the period under review, which could be due to challenges in setting up new county government administration. Counties with the highest proportion of development expenditure to the approved annual development budget were; - Narok at 9.8 per cent, Vihiga at 9.2 per cent, and Nyamira at 8.8 per cent. An analysis of the development expenditure implemented by Counties is provided in Chapter Three.

## 2.4.2 Recurrent Expenditure

The Counties spent an aggregate of Kshs.52.60 billion or 9.6 per cent of the total expenditure on recurrent activities. This expenditure represented 16.5 per cent of the annual County government's budget for recurrent activities and was an improvement from 15.4 per cent recorded in a similar period of the FY 2021/22 when expenditure stood at Kshs.49.28 billion.

The recurrent expenditure comprised Kshs.43.15 billion (82 per cent) on Personnel Emoluments and Kshs.9.45 billion (18 per cent) on Operations and Maintenance (O&M) expenditure. An analysis of the recurrent expenditure by Counties is provided in Chapter Three.

## 2.4.3 Review of MCA Sitting Allowances

The County Assemblies spent Kshs.89.63 million on MCA's Sitting allowances against an approved budget allocation of Kshs.2.47 billion during the reporting period. This expenditure translated to 3.6 per cent of the

approved MCAs sitting allowance budget, a decrease from 17.5 per cent attained in the First Quarter of FY 2021/22 when Kshs.433.81 million was spent. Table 2-4 shows the budgetary allocation and expenditure on MCAs and Speakers' sitting allowances in the First Quarter of FY 2022/23.

County Assemblies that recorded the highest average monthly sitting allowance per MCA were Makueni at Kshs.107,135, Kwale at Kshs.67,004 and Mombasa at Kshs.65,060. The analysis shows that twenty-one county assemblies did not report expenditure on committee sitting allowances during the period under review.

#### 2.4.4 Pending Bills as of September 30, 2022

A pending bill is an unsettled financial obligation at the end of a financial year. It arises when an entity fails to settle invoiced amounts for goods and services adequately procured, delivered, or rendered at the end of a financial year.

As of September 30, 2022, counties reported outstanding pending bills amounting to Kshs.161.36 billion and comprised of Kshs.127.38 billion for recurrent expenditure and Kshs.33.98 billion for development expenditure, as shown in Table 2-5.

### 3.2.3 Exchequer Issues

The Controller of Budget approved withdrawals of Kshs.884.38 million from the CRF account during the reporting period. The amount was entirely for recurrent programmes. Expenditure on recurrent programmes represented an absorption rate of 18.5 per cent on the annual recurrent expenditure budget. The over-absorption of exchequer releases is attributed to F.I.F collections spent at source by the Department of Health without transmission to the CRF Account.

### 3.2.5 Settlement of Pending Bills

At the beginning of FY 2022/23, the County reported pending bills of Kshs.349.38, which comprised Kshs.199.93 million for recurrent expenditure and Kshs.149.44 million for development activities. The County did not settle the pending bills during the period under review despite the availability of Kshs.1.17 billion in the CRF.

### 3.2.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.746.51 million on employee compensation and Kshs.68.01 million on operations and maintenance. ### 3.2.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.810.06 million was 21.7 per cent of the annual realised revenue of Kshs.3.73 billion and included Kshs.457.54 million attributable to the health sector, which translated to 56.5 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.791.60 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.18.46 million. The manual payroll amounted to 2.3 per cent of the total P.E costs and was caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff. There were recruitments on designations that do not conform to the scheme of service and the IPPD system and employment of staff on short term contracts of less than six months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not incur any expenditure on committee sitting allowances for the 45 MCAs and the Speaker against the annual budget allocation of Kshs.22.26 million. The County Assembly has established 25 House Committees. There were no bills or policy documents were processed during that period.

### 3.2.8 County Emergency Fund and County-Established Funds

Sub-programmes with high levels of implementation based on absorption rates were: Water Management Services in the Department of Water & Irrigation at 24.4 per cent, followed by General Administration in the Department of County Executive Services at 24.3 per cent, Inter & Intra -Governmental Relations services in the Department of County Executive Services at 21.6 per cent, Mogotio Sub- County at 22.1 per cent in the County Executive Services Department, and finally Baringo North Sub-County at 20.6 per cent in the County Executive of their budget allocation.

### 3.2.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.43.81 million against an annual projection of Kshs.312.47 million represented 14 per cent of the yearly target.
2. Diversion of funds by the County Treasury and poor budgeting practice, as shown in Table 3-4, where the County incurred expenditure over approved exchequer issues in some departments, further evidenced in the Department of Health, where Kshs.32.93 million was spent at the source without transmission into the CRF account and authority to incur the expenditure.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, contrary to the requirement of Section 168 of the PFM Act, 2012. The reports for the Bursary Fund, Emergency Fund, Small & Medium Enterprise Fund, Co-operative Development Fund, County Executive Car Loan & House Mortgage Scheme, and Community Wildlife Conservation Fund were not submitted to the Controller of Budget.
4. The high figure of pending bills, of Kshs.349.38 million as of 30th September 2022, despite the availability in the CRF of Kshs.1.17 billion at the end of the First Quarter of FY 2022/23.
5. Use of manual payroll where personnel emoluments amounting to Kshs.18.46 million were processed through the manual payroll, accounting for 2.3 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds due to poor controls.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed.*
2. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
5. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the recruitment of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

### **3.3 County Government of Bomet**

#### **3.3.1 Overview of FY 2022/23 Budget**

The County's approved budget for the FY 2022/23 is Kshs.7.85 billion, comprising Kshs.2.27 billion (28.9 per cent) and Kshs.5.58 billion (71.1 per cent) allocation for development and recurrent programmes, respectively. The approved budget estimate is a decline of 6.0 per cent compared to the previous financial year when the approved budget was Kshs.8.35 billion and comprised of Kshs.2.79 billion towards development expenditure and Kshs.5.56 billion for recurrent expenditure.

To finance the budget, the County expects to receive Kshs.6.69 billion (85.3 per cent) as the equitable share of revenue raised nationally, generate Kshs.300.00 million (3.8 per cent) from its sources of revenue, and a cash balance of Kshs.399.91 million (5.1 per cent) from FY 2021/22. The County also expects to receive Kshs.457.16 million (5.8 per cent) as conditional grants, of which shs.110.64 million is for the Leasing of Medical Equipment, Kshs.100 million is for Kenya Devolution Support Programme (Level 1 & 2 Grant), Kshs.11.61 million is for HSSF DANIDA, Kshs.219.32 million for IDA Kenya Climate Smart Programme, and Kshs.15.59 million for Agriculture Sector Development Support Programme.

### 3.3.2 Revenue Performance

In the First Quarter of FY 2022/23, the County received Kshs.1.10 billion as the equitable share of the revenue raised nationally, raised Kshs.17.44 million as own-source revenue and had a cash balance of Kshs.853.15 million from FY 2021/22. The total funds available for budget implementation during the period amounted to Kshs.1.97 billion, as shown in Table 3-6

**Table 3-6: Bomet County, Revenue Performance in the First Quarter of FY 2022/23**

The actual unspent balances of FY 2021/22 were more than those budgeted for in the Approved Budget and thus more than 100 per cent, as indicated in Table 1 above. No conditional grant was released in the First Quarter of FY 2022/23.

Figure 3-4 shows the annual trend in own-source revenue collection for the First Quarter from FY 2016/17 to FY 2022/23.

In the First Quarter of FY 2022/23, the County generated a total of Kshs.17.44 million as own-source revenue. This amount represented a decrease of 57.1 per cent compared to Kshs.40.64 million realised in a similar period in FY 2021/22 and was 5.8 per cent of the annual target and 1.6 per cent of the received equitable share. The top five revenue streams which contributed the highest OSR are shown in Figure 3-5.

**Figure 3-5: Top Streams of Own Source Revenue in the First Quarter of FY 2022/23**

The highest revenue stream was from profits and dividends arising from farming activities. The country has an 800 acre farm in Konoin sub county where tea is grown.

### 3.3.3 Exchequer Issues

The Controller of Budget approved Kshs.1.03 billion in withdrawals from the CRF account during the reporting period, which was entirely for recurrent programmes. The exchequer released in the First Quarter of FY 2022/23 comprised Kshs.818.35 million for compensation to employees and Kshs.213.72 million for Operations & Maintenance expenditures.

The cash available in the County Revenue Fund Account on 30th September 2022 was Kshs.627.01 million. Additionally, there were Kshs.308.71 million and Kshs.7.66 million, respectively, in the Special Purpose Accounts (for the donor funds) and the Established Funds accounts of the County that were reported during the beginning of the financial year and which had not been expended.

### 3.3.4 County Expenditure Review

The County spent Kshs.997.17 million on recurrent programmes during the reporting period. This expenditure represented 96.6 per cent of the total funds released by the CoB and an absorption rate of 17.9 per cent of the annual recurrent expenditure budget.

### 3.3.5 Settlement of Pending Bills

At the beginning of FY 2022/23, the County reported the stock of pending bills of Kshs.35.13 million, which was entirely for development activities. However, in the period under review, the County Treasury revised the pending bills stock to Kshs.682.37 million, comprising Kshs.56.83 million for recurrent expenditure and Kshs.625.54 million for development programmes.

### 3.3.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.703.87 million on employee compensation and Kshs.225.80 million on operations and maintenance. Similarly, the County Assembly spent Kshs.37.56 million on employee compensation and Kshs.29.93 million on operations and maintenance, as shown in Table 3-7.

**Table 3-7: Summary of Budget and Expenditure by Economic Classification**

### 3.3.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.818.35 million was 41.4 per cent of the realised revenue of Kshs.1.97 billion and included Kshs.197.15 million attributable to the health sector, which translated to 24.1 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.501.00 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while Kshs.317.36 million was paid through manual payroll. The manual payroll accounted for 38.8 per cent of the total P.E costs and is due to delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than six months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.772,500 on committee sitting allowances for the 38 MCAs and the Speaker against the annual budget allocation of Kshs.32.63 million, which was 2.6 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.6,603 per MCA. The County Assembly has established 15 Committees.

### 3.3.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act 2012 establishes the Emergency Fund, while Section 116 of the PFM Act 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Ksh.144.50 million to county-established funds in FY 2022/23, constituting 1.8 per cent of the County's overall budget for the year. Table 3-8 summarises each established Fund's budget allocation and performance during the reporting period.

The County did not submit quarterly financial returns from the Fund Administrators of the funds to the CoB, as indicated in Table 3-8, contrary to the requirement of Section 168 of the PFM Act, 2012.

Sub-programmes with the highest levels of recurrent budget implementation based on absorption rates were: Finance Administration and Economic Planning in the Department of Finance and Economic Planning at 47.0 and 35.0 per cent, respectively, and Cooperatives & Enterprise Development in the Department of Trade, Energy, Tourism and Industry at 23.6 per cent of budget allocation.

### 3.3.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.17.44 million against an annual projection of Kshs.300 million, representing 5.8 per cent of the yearly target.
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Bursary Fund, Revolving Fund and Mortgage/Car Loan Fund were not submitted to the Controller of Budget.
3. High pending bills amounting to Kshs.682.37 million as of 30th September 2022, despite the availability of cash in the CRF of shs.627.01 million at the end of the First Quarter of FY 2022/23.

Use of manual payroll. Personnel emoluments amounting to Kshs.317.36 million were processed through the manual payroll and accounted for 38.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds due poor controls.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its source revenue performance to ensure the approved budget is fully financed.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

### 3.4.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.25 billion was 65.1 per cent of the annual realised revenue of Kshs.1.93 billion and included Kshs.525.93 million attributable to the health sector, which translated to 41.9 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.1.25 billion were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while there was no payment through manual payroll. The manual payroll is caused by delays in allocating Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short-term contracts of less than six months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.2.83 million on committee sitting allowances for the 62 MCAs and the Speaker against the annual budget allocation of Kshs.25.65 million, 41.8 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.15,188 per MCA. The County Assembly has established 24 Committees. No bills or policy documents were processed during the period under review.

### 3.4.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act 2012 establishes the Emergency Fund, while Section 116 of the PFM Act 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.400 million to the Bursary Fund in FY 2022/23, which constituted 3.0 per cent of the County's overall budget for the year. Actual expenditure was Kshs.200 million at the end of the First Quarter.

Sub-programmes with the highest levels of implementation based on absorption rates were: General Administration and Support Services in the County Assembly at 15.1 per cent, General administration, planning and support services in the office of the governor at 34.5 per cent, Human Resource Management at the Department of County Public Service Board at 19.7 per cent, and Compensation to employees in the Department of Gender at 21.7 per cent of budget allocation.

### 3.4.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.55.03. million against an annual projection of Kshs.700 million, representing 7.9 per cent of the yearly target.
2. Failure by the County Treasury to budget for the cash balance of Kshs.1.11 billion from FY 2021/22.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB is against the requirement of Section 168 of the PFM Act, 2012. The Bursary Fund and Emergency Fund reports were not submitted to the Controller of Budget.
4. High pending bills amounting to Kshs.231.17 million as of 30th September 2022, despite the availability of cash in the CRE, which stood at Kshs.135.07 million at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its source revenue performance to ensure the approved budget is fully financed.*
2. *The County should prepare a supplementary budget and appropriate the cash balance from FY 2021/22.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

## 3.5 County Government of Busia

### 3.5.1 Overview of FY 2022/23 Budget

The County's approved budget for the FY 2022/23 is Kshs.8.12 billion, comprising Kshs.2.44 billion (30 per cent) and Kshs.5.68 billion (70 per cent) allocation for development and recurrent programmes, respectively. The approved budget estimate is a decline of 3.6 per cent compared to the previous financial year when the approved budget was Kshs.8.43 billion and comprised of Kshs.2.79 billion towards development expenditure and Kshs.5.64 billion for recurrent expenditure.

To finance the budget, the County expects to receive Kshs.7.17 billion (88.3 per cent) as the equitable share of revenue raised nationally and generate Kshs.469.16 million (5.8 per cent) from its own sources of revenue. The County did not budget for the cash balance from FY 2021/22, which amounts to Kshs.759.62 million.

The County also expects to receive Kshs.477.13 million (5.9 per cent) as conditional grants, which consist of Kenya Climate Smart Agriculture Project (KCSAP) Kshs.295.79 million, DANIDA grant Kshs.12.67 million, World Bank credit to finance Locally-Led Climate Action Program, (FLLoCA) Kshs.125.00 million, Agriculture Sector Development Support Programme II (ASDSP II) Kshs.9.44 million, and a cash balance of Kshs.34.22 million.

### 3.5.2 Revenue Performance

In the First Quarter of FY 2022/23, the County received Kshs.1.18 billion as the equitable share of the revenue raised nationally, raised Kshs.45.37 million as own-source revenue and had a cash balance of Kshs.759.62 million from FY 2021/22. The total funds available for budget implementation during the period amounted to Kshs.1.41 billion, as shown in Table 3-15.

The highest revenue stream was from Hospital User fees of Kshs.13.4 million, contributing to 30 per cent of the OSR collected in the first quarter of FY 2022/23.

### 3.5.3 Exchequer Issues

The Controller of Budget approved Kshs.1.24 billion in withdrawals from the CRF account during the reporting period, which was entirely for recurrent programmes. The exchequer released in the First Quarter of FY 2022/23 comprised Kshs.990.47 million for compensation to employees and Kshs.244.99 million for Operations and Maintenance expenditures.

The available cash balance in the County Revenue Fund Account on 30th September 2022 was Kshs.256.79 million.

### 3.5.4 County Expenditure Review

The County spent Kshs.951.20 million on recurrent programmes during the reporting period. This expenditure represented 77.0 per cent of the total funds released by the CoB and was entirely on recurrent programmes. Expenditure on recurrent expenditure represented 16.7 per cent of the annual recurrent expenditure budget.

### 3.5.5 Settlement of Pending Bills

At the beginning of FY 2022/23, the County reported the stock of pending bills of Kshs.1.81 billion, comprising Kshs.581.91 million for recurrent expenditure and Kshs.1.22 billion for development activities. During the period under review, pending bills amounting to Kshs.21.65 million were settled for recurrent expenditure. Therefore, as of 30th September 2022, the outstanding pending bills were Kshs.1.76 billion.

### 3.5.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.820.58 million on employee compensation and Kshs.74.68 million on operations and maintenance. Similarly, the County Assembly spent Kshs.14.54 million on employee compensation and Kshs.41.39 million on operations and maintenance, as shown in Table 3-16.

### 3.5.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.835.12 million was 59.0 per cent of the realised revenue of Kshs.1.41 billion and included Kshs. 359.71 million attributable to the health sector, which translated to 43.1 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.830.16 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.4.96 million. The manual payroll amounted to 0.6 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report any expenditure on committee sitting allowances for the MCAs and the Speaker against the annual budget allocation of Kshs.94.59 million.

### 3.5.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund, while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.220.38 million to county-established funds in FY 2022/23, constituting 2.7 per cent of the County's overall budget for the year. Table 3-17 summarises each established Fund's budget allocation and performance during the reporting period.

Sub-programmes with the highest levels of implementation based on absorption rates were: Administrative support service in the Department of Education and Vocational Training at 28.7 per cent, Administrative support service in the Department of Trade, Investment, Industry and Cooperatives at 26.0 per cent, Administrative support service in the Department of Infrastructure and Energy at 23 per cent, and Administrative support service in the Department of Agriculture, Livestock and Fisheries at 22.7 per cent of budget allocation.

### 3.5.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was received on 28th October 2022.
2. The underperformance of own-source revenue at Kshs.45.37 million against an annual projection of Kshs.469.13 million, representing 9.7 per cent of the annual target.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the County Assembly Car Loan and Mortgage Fund, County Executive Car Loan and Mortgage Fund, Busia County Cooperative Enterprise Development Fund and Busia County Health Services Fund were not submitted to the Controller of Budget.
4. High level of pending bills which amounted to Kshs.1.76 billion as of 30th September, 2022. This is despite the availability of cash in the CRF, which stood at Kshs.256.79 million at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

## 3.6 County Government of Elgeyo Marakwet

### 3.6.1 Overview of FY 2022/23 Budget

The County's approved budget for the FY 2022/23 is Kshs.4.85 billion, comprising Kshs.1.14 billion (23.5 per cent) and Kshs.3.71 billion (76.5 per cent) allocation for development and recurrent programmes, respectively. Sub-programmes with the highest levels of implementation based on absorption rates were: General administration and support services in the Department of Public Service Management at 35 per cent, the same programme in the Department of Health and Sanitation at 23 per cent, General administration and support services in the Office of the Governor at 22 per cent of budget allocation.

### 3.6.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.30.8 million against an annual projection of Kshs.246.24 million, representing 12.5 per cent of the annual target.
2. Failure by the County Treasury to appropriate the unspent cash balance from the previous financial year, which amounted to Kshs.583.49 million.

The County should implement the following recommendations to improve budget execution;

1. The County should address its own source revenue performance to ensure the approved budget is fully financed.
2. The County Treasury should cause the supplementary budget to be prepared in order to appropriate the unspent cash balances from the previous financial year.

## 3.7 County Government of Embu

This amount represented a decrease of 38.9 per cent compared to Kshs.114.73 million realised in a similar period in FY 2021/22 and was 7.4 per cent of the annual target and 5.6 per cent of the received equitable share. The top five revenue streams which contributed the highest OSR are shown in Figure 3-17.

The highest revenue stream was from Ministry of Health of Kshs.36.5 million, which contributed to 52 per cent of the OSR collected in the first quarter of FY 2022/23.

### 3.7.3 Exchequer Issues

The Controller of Budget approved Kshs.855.19 million in withdrawals from the CRF account during the reporting period, which was entirely for recurrent programmes. The exchequer released in the First Quarter of FY 2022/23 comprised Kshs.747.97 million for compensation to employees and Kshs.107.21 million for Operations and Maintenance expenditures.

The available cash balance in the County Revenue Fund Account on 30th September 2022 was Kshs.482.94 million.

### 3.7.4 County Expenditure Review

The expenditure of Kshs.817.28 million for the period under review was entirely on recurrent programmes. This expenditure represented 95.6 per cent of the total funds released by the CoB and 17.8 per cent of the annual recurrent expenditure budget.

### 3.7.5 Settlement of Pending Bills

At the beginning of FY 2022/23, the County reported the stock of pending bills of Kshs.2.24 billion, which comprised Kshs.1.16 billion for recurrent expenditure and Kshs.1.08 billion for development activities. During the period under review, pending bills amounting to Kshs.248.59 million were settled entirely for recurrent expenditure. Therefore, as of 30th September 2022, the outstanding pending bills were Kshs.1.99 billion.

### 3.7.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.657.45 million on employee compensation and Kshs.76.68 million on operations and maintenance. Similarly, the County Assembly spent Kshs.46.24 million on employee compensation and Kshs.36.91 million on operations and maintenance, as shown in Table 3-25.

### 3.7.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.703.69 million was 53.1 per cent of the annual realised revenue of Kshs.1.33 billion and included Kshs.361.07 million attributable to the health sector, which translated to 51.3 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.696.36 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.7.33 million. The manual payroll amounted to 1.0 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD

system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPNs for their staff.

The County Assembly spent Kshs.2.64 million on committee sitting allowances for the 30 MCAs and the Speaker against the annual budget allocation of Kshs.23.15 million, which was 5.7 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.28,348 per MCA. The County Assembly established 24 Committees, and one bill was processed during the period.

### 3.7.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act 2012 establishes the Emergency Fund, while Section 116 of the PFM Act 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.231 million to county-established funds in FY 2022/23, which constituted 3.2 per cent of the County's overall budget for the year. Table 3-26 summarises each established Fund's budget allocation and performance during the reporting period.

Analysis of expenditure by department shows that the Embu Level 5 Hospital had the highest percentage of recurrent expenditure to budget at 32.2 per cent. The Department of Embu Financing Locally Led Climate Action Program had the lowest at 4.4 per cent. Several departments have expenditures above exchequer issues which were caused by the diversion of funds by the County Treasury.

Recurrent expenditure ceilings were Kshs.594.79 million and Kshs.569.00 million for the County Assembly and Executive, respectively, as set in CARA 2022. The allocation for recurrent expenditure for the County Assembly is above the CARA ceilings by Kshs.87.66 million (after considering exempted expenditure), while the County Executive recurrent expenditure is within the ceilings in CARA,2022.

Sub-programmes with the highest levels of implementation based on absorption rates were: (SP1.1: Primary Health Care, SP2.1: Health Promotion & Disease Control, and SP3.1: General Administration services) in the Department of Embu Level 5 Hospital at 20.6 per cent, (SP1.1: Administration, Planning and Support Services, SP 2.1: Economic Development Planning and Coordination, SP3.1: Revenue Management Services, SP3.2: Control and Management of Public Finances, SP 4.1: Monitoring and Evaluation of projects, and SP5.1: County database and profile) in the Department of Finance and Economic Planning at 18.7 per cent, (SP1.1: Primary Health Care, SP2.1: Health Promotion & Disease Control, and SP3.1: General Administration services) in the Department of Health at 18.6 per cent, and (SP1.1: Performance Management & Discipline, SP1.2: Administration of board programmes, SP1.3: Recruitment and Selection, Career Management, HR Policy & Audit, and SP1.4 Quality service delivery) in the County Public Service that is effective and efficient, Department of Public Service and Administration at 17.4 per cent of budget allocation.

### 3.7.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.70.11 million against an annual projection of Kshs.950 million, representing 7.4 per cent of the annual target.
2. Diversion of funds by the County Treasury and poor budgeting practice, as shown in Table 3-27, where the County incurred expenditure over approved exchequer issues in a number of departments.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Embu County Education Support Fund, Embu County Youth Trust Fund, Embu County Emergency Fund, Embu County Executive Car & Mortgage, and County Assembly of Embu (Staff) Car Loan and Mortgage Scheme Fund were not submitted to the Controller of Budget.
4. High level of pending bills which amounted to Kshs.1.99 billion as of 30th September, 2022. This is despite having a cash balance of Kshs.482.94 million at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

### 3.8.4 County Expenditure Review

The County spent Kshs.1.69 billion on recurrent programmes during the reporting period. This expenditure represented 97.7 per cent of the total funds released by the CoB, which was entirely for the recurrent programmes and represented 26.6 per cent of the annual recurrent expenditure budget.

### 3.8.5 Settlement of Pending Bills

At the beginning of FY 2022/23, the County reported the stock of pending bills of Kshs.1.44 billion, comprising Kshs.36.90 million for recurrent expenditure and Kshs.1.41 billion for development activities. The County did not settle the pending bills during the period under review.

### 3.8.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.39 billion was 70.2 per cent of the annual realised revenue of Kshs.1.98 billion and included Kshs.875.01 million attributable to the health sector, which translated to 62.9 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.1.23 billion were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.234.87 million. The manual payroll amounted to 16.1 per cent of the total P.E costs. It was occasioned by delays in allocating Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short-term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report any amount on committee sitting allowances for the 49 MCAs and the Speaker against the annual budget allocation of Kshs.36.0 million.

### 3.8.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund, while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.240 million to county-established funds in FY 2022/23, which constituted 2.6 per cent of the County's overall budget for the year. Table 3-31 summarises each established Fund's budget allocation and performance during the reporting period.

Sub-programmes with the highest levels of implementation based on absorption rates were: Curative Service in the Department of Health and Sanitation at 84 per cent, Administration and Support Service in the Department of Water and Irrigation at 50.9 per cent, Administration and Support Service in the Department of Agriculture, Livestock and Cooperative at 42.6 per cent, and Road at 41.4 per cent of budget allocation.

### 3.8.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was received on 24th October 2022.
2. The underperformance of own-source revenue at Kshs.10.10 million against an annual projection of Kshs.116.4 million, representing 8.7 per cent of the annual target.
3. High level of pending bills which amounted to Kshs.1.44 billion as of 30th September, 2022. This is despite the availability of cash in the CRF, which stood at Kshs.721.33 million as of the end of the First Quarter of FY 2022/23.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.234.87 million were processed through the manual payroll and accounted for 16.1 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. Fund administrators failed to provide financial statements of the established County Funds to the OCOB, which is against Section 168 of the PFM Act, 2012.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the hiring of staff on contract basis and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*
5. *The CECMF should ensure that all Fund Administrators submit the quarterly financial statements in line with the law.*

### 3.9.8 Expenditure on Compensation to Employees.

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue.

Expenditure on compensation to employees of Kshs.576.45 million was 44.2 per cent of the realised revenue of Kshs.1.3 billion and included Kshs.309.27 million attributable to the health sector, which translated to 53.7 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.495.15 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.81.31 million. The manual payroll amounted to 14 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than six months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report any expenditure on committee sitting allowances for the 55 MCAs and the Speaker against the annual budget allocation of Kshs.110.24 million. The County Assembly has established 26 Committees; however, no bills or policy documents were processed during the period.

Sub-programmes with the highest levels of implementation based on absorption rates were: Community health services in the Department of health services 75.7 per cent, Agriculture Sector Development Support Programme in the Department of Agriculture, Livestock, Fisheries and Food Security at 65 per cent, and Report writing services in the Department of County assembly at 41.5 per cent of budget allocation.

### 3.9.14 Key Observations Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.17.08 million against an annual projection of Kshs.191.08 million, representing 8.9 per cent of the annual target.
2. Diversion of funds by the County Treasury and poor budgeting practice as shown in Table 5, where the County incurred expenditure over approved exchequer issues in some departments
3. High level of pending bills which amounted to Kshs.882.33 million as of 30th September, 2022. This is despite the availability of cash in the CRF, which stood at Kshs.463.30 million at the end of the First Quarter of FY 2022/23.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.81.41 million were processed through the manual payroll and accounted for 14 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. The County should address its own-source revenue performance to ensure the approved budget is fully financed.
2. The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act,

2012.

3. The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.
4. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.

## 3.10 County Government of Isiolo

### 3.10.1 Overview of FY 2022/23 Budget

The County's approved budget for the FY 2022/23 is Kshs.5.43 billion, comprising Kshs.1.93 billion (35.5 per cent) and Kshs.3.5 billion (64.5 per cent) allocation for development and recurrent programmes respectively. The approved budget estimate is a decline of 1.5 per cent compared to the previous financial year when the approved budget was Kshs.5.51 billion and comprised of Kshs.2.14 billion towards development expenditure and Kshs.3.37 billion for recurrent expenditure.

The report on Budget Performance by Programmes and Sub-programmes is based on the half-year budget which was available on IFMIS for utilisation during the period under review.

### 3.10.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Failure by the County Treasury to budget for cash balance from the previous financial year which amounted to Kshs 552.95 million
2. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was received on 11th November 2022
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Bursary Fund were not submitted to the Controller of Budget.
4. High level of pending bills which amounted to Kshs.760.35 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.552.95 million at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure unspent cash balance from the previous financial year is captured in the Supplementary Budget.*
2. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

### 3.11.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.02 billion was 74.5 per cent of the realised revenue of Kshs.1.37 billion and included Kshs.437.02 million attributable to the health sector, which translated to 42.7 per cent of the total wage bill in the reporting period.

The manual payroll amounted to 3 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report expenditures on committee sitting allowances for the 42 MCAs and the Speaker. The County Assembly has allocated Kshs.6.24 million in the FY2022/23 budget to cater for sitting allowances for the 20 County Assembly Committees.

Sub-programmes with the highest levels of implementation based on absorption rates were: General Administration, Planning and Support Services in the Department of Transport at 28.6 per cent, General Administration Planning and Support Services in the Department of Lands, Physical Planning and Urban Development at 25.3 per cent, and General Administration Planning and Support Services in the Department of Water, Irrigation, Environment, and Natural Resources at 24.2 per cent of budget allocation.

### 3.11.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

5. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 7th November 2022.
6. The underperformance of own-source revenue at Kshs.51.55 million against an annual projection of Kshs.1.50 billion, representing 3.4 per cent of the annual target.
7. Diversion of funds by the County Treasury and poor budgeting practice as shown in Table 3-46, where the County incurred expenditure over approved exchequer issues in a number of departments.
8. Use of manual payroll. Personnel emoluments amounting to Kshs.28.69 million were processed through the manual payroll and accounted for 3 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
9. High level of pending bills which amounted to Kshs.1.99 billion as of 30th September 2022. This is despite the availability of cash in the CRF, which stood at Kshs.190.01 million at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*
5. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

## 3.12 County Government of Kakamega

### 3.12.1 Overview of FY 2022/23 Budget

The County's approved budget for the FY 2022/23 is Kshs.15.41 billion, comprising Kshs.5.70 billion (37 per cent) and Kshs.9.71 billion (63 per cent) allocation for development and recurrent programmes, respectively. ### 3.12.8 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.47 billion was 62 per cent of the First Quarter realised revenue of Kshs.2.37 billion and included Kshs.701.2 million attributable to the health sector, which translated to 50.5 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.1.33 billion were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.62.3 million. The manual payroll amounted to 4.5 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.12.31 million on committee sitting allowances for the 89 MCAs and the Speaker against the annual budget allocation of Kshs.171.05 million, 25.6 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.45,582 per MCA.

Sub-programmes with the highest levels of implementation based on absorption rates were: economic policy formulation in the Department of Management and administration of county functions at 47.54 per cent,

Administrative service in the Department of county public service and administrative service at 35.47 per cent, Malaria in the Department of Preventive and promotive services at 36.77 per cent, and diseases surveillance at 31.06 per cent of budget allocation.

### 3.12.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.171.57 million against an annual projection of Kshs. 2.0 billion, representing 8.5 per cent of the annual target.
2. High level of pending bills which amounted to Kshs. 1.15 billion as of 30th September 2022. This is despite the availability of cash in the CRE, which stood at Kshs. 146.5 million as of the end of the First Quarter of FY 2022/23.
3. Use of manual payroll. Personnel emoluments amounting to Kshs.62.3 million were processed through the manual payroll and accounted for 4.5 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed.*
2. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
3. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff recruitment on contract terms and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

## 3.13 County Government of Kericho

### 3.13.1 Overview of FY 2022/23 Budget

The County's approved budget for the FY 2022/23 is Kshs.7.88 billion, comprising Kshs.2.36 billion (30 per cent) and Kshs.5.52 billion (70 per cent) allocation for development and recurrent programmes respectively. The approved budget estimate is a decline of 12.3 per cent compared to the previous financial year when the approved budget was Kshs.8.85 billion and comprised of Kshs.3.85 billion towards development expenditure and Kshs.5.0 billion for recurrent expenditure.

To finance the budget, the County expects to receive Kshs.6.43 billion (81.6 per cent) as the equitable share of revenue raised nationally, generate Kshs.853.27million (10.8 per cent) from own source of revenue. The County also expects to receive Kshs.594.80 million (7.6 per cent) as conditional grants, which consist of the Agricultural Sector Development Support Fund (ASDSP II), Transformative Health System (World Bank), Kenya Devolution Support Project (World Bank), Climate Smart Agriculture Project (World Bank) and Climate Change Institutional Support (World Bank). The County did not budget for unspent cash balance from the previous financial year.

### 3.13.2 Revenue Performance

Expenditure on development programmes represented an absorption rate of 6.2 per cent while recurrent expenditure represented 16.0 per cent of the annual recurrent expenditure budget.

### 3.13.5 Settlement of Pending Bills

### 3.13.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.762.35 million was 44.7 per cent of the realised revenue of Kshs.1.71 billion and included Kshs.435.88 million attributable to the health sector, which translated to 57.2 per cent of the total wage bill in the reporting period.

The manual payroll amounted to 12.6 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not spend on committee sitting allowances for the 48 MCAs and the Speaker against the annual budget allocation of Kshs.20.42 million.

Sub-programmes with the highest levels of implementation based on absorption rates were: Land policy and planning in the Department of Land, Housing & Physical Planning at 24.6 per cent, Legislative Services in the department of County Assembly at 23.1 per cent, Trade Development and Investment in the Department of Trade, Industrialization, Tourism, Wildlife & Cooperative Development at 21.76 per cent, Audit Services in the Department of Finance & Economic Planning at 21.24 per cent, and Policy, Strategy and Management of Agriculture at 21.13 per cent of budget allocation.

### 3.13.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 18 October 2022.
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Education Bursary Fund, Mortgages Fund, Car loans for MCAs Fund and Car Loans/Mortgages for Staff Fund were not submitted to the Controller of Budget.
3. High level of pending bills which amounted to Kshs.515.05 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.564.56 million as at the end of the First Quarter of FY 2022/23.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.86.27 million were processed through the manual payroll and accounted for 12.6 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

## 3.14 County Government of Kiambu

### 3.14.1 Overview of FY 2022/23 Budget

The County's approved budget for the FY 2022/23 is Kshs.16.47 billion, comprising Kshs.4.88 billion (29.7 per cent) and Kshs.11.59 billion (70.3 per cent) allocation for development and recurrent programmes, respectively. The approved budget estimate is a decline of 5.9 per cent compared to the previous financial year when the approved budget was Kshs.17.51 billion and comprised of Kshs.4.87 billion towards development expenditure and Kshs.12.64 billion for recurrent expenditure.

To finance the budget, the County expects to receive Kshs.11.72 billion (71.1 per cent) as the equitable share of revenue raised nationally and generate Kshs.4.14 billion (25.1 per cent) from its own sources of revenue. The County expects to also receive Kshs.589.24 million (3.6 per cent) as conditional grants, which consists of Transforming Health Systems for Universal Care Project (WB) Kshs.11.43 million, National Agricultural and Rural Inclusive Growth Project (NAGRIP) Kshs.402.84 million, Kenya Devolution Support Project (KDSP) Level 2 Grant Kshs.73.73 million, DANIDA Grant Kshs.20.90 million, Sweden - Agricultural Sector Development Support Programme (ASDSP) II Kshs.30.34 million, and Kenya Informal Settlement Improvement Project (KISIP II) Kshs.50 million. ### 3.14.4 County Expenditure Review

The County spent Kshs.2.04 billion on development and recurrent programmes during the reporting period. This expenditure represented 108.7 per cent of the total funds released by the CoB and comprised Kshs.107.30 million and Kshs.1.93 billion on development and recurrent programmes, respectively. Expenditure on development programmes represented an absorption rate of 2.2 per cent, while recurrent expenditure represented 16.7 per cent of the annual recurrent expenditure budget.

### 3.14.5 Settlement of Pending Bills

At the beginning of FY 2022/23, the County reported the stock of pending bills of Kshs.4.81 billion, which comprised Kshs.2.78 billion for recurrent expenditure and Kshs.2.03 billion for development activities. During the period under review, pending bills amounting to Kshs.1.06 million were settled, which were recurrent in nature.

### 3.14.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.1.66 billion on employee compensation, Kshs.276.14 million on operations and maintenance, and Kshs.107.30 million on development activities. However, the County Assembly did not report any expenditure on all the major economic classifications, as shown in Table 3-58.

**Table 3-58: Summary of Budget and Expenditure by Economic Classification**

### 3.14.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.66 billion was 67.4 per cent of the annual realised revenue of Kshs.2.46 billion and included Kshs.1 billion attributable to the health sector, which translated to 60.7 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.1.58 billion were processed through the Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.76.55 million. The manual payroll amounted to 4.6 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report any expenditure on committee sitting allowances.

### 3.14.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund, while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.30 million to the Emergency Fund and Kshs.480.80 million to county-established funds in FY 2022/23, constituting 3.1 per cent of the County's overall budget for the year. Table 3-59 summarises each established Fund's budget allocation and performance during the reporting period.

Analysis of expenditure by departments shows that the Department of Agriculture, Crop Production and Irrigation recorded the highest absorption rate of development budget at 12.1 per cent, while all other departments did not report any expenditure on development activities. The Department of Roads, Transport and Public Works had the highest recurrent expenditure to the budget percentage at 23.4 per cent. The Department of County Public Service Board had the lowest at 5.5 per cent.

Further analysis shows expenditures to exchequer issues for several departments are above 100 per cent, as indicated by the financial statements using payments done at IFMIS level. Generally, a substantial number of transactions may appear as having been paid at IFMIS, but in practice, they are awaiting funding at the CBK Internet Banking (IB) level resulting in the variance.

The approved budget for the County Assembly shows an allocation of Kshs.1.40 billion for the recurrent budget compared to the County Revenue Allocation Act (CARA) 2022 set ceiling of Kshs.1.11 billion. This allocation includes Kshs.237 million for MCAs mortgage and car loans and an additional Kshs.50 million for Staff Mortgage.

Sub-programmes with the highest levels of implementation based on absorption rates were: General Administration and Support services in the Department of Education at 24.8 per cent, General Administration and Support services in the Department of Health Services at 24.6 per cent, General Administration and Support services in the Department of Roads, Transport and Public Works at 23.4 per cent of budget allocation.

### 3.14.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.527.23 million against an annual projection of Kshs.4.14 billion, representing 12.7 per cent of the annual target.
2. High level of pending bills which amounted to Kshs.4.81 billion as of 30th September 2022. This is despite the availability of cash in the CRF, which stood at Kshs.399.53 million at the end of the First Quarter of FY 2022/23.
3. Use of manual payroll. Personnel emoluments amounting to Kshs.76.55 million were processed through the manual payroll and accounted for 4.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
4. Low absorption of development funds as indicated by the expenditure of Kshs.107.30 million in the First Quarter FY 2022/23 from the annual development budget allocation of Kshs.4.88 billion. The development expenditure represented 2.2 per cent of the annual development budget.
5. The County budget does not comply with the 30 per cent development budget threshold as provided for in Section. 107 (2) (b) of the PFM Act, 2012. A review of the approved estimates indicates a recurrent allocation of Kshs.11.59 billion translates to 70.3 per cent of the total budget, whereas the development allocation is 29.7 per cent (Kshs.4.88 billion).

The County should implement the following recommendations to improve budget execution;

1. The County should address its own-source revenue performance to ensure the approved budget is fully financed.

2. The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.
3. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.
4. The County should identify and address issues causing delays in implementing development projects.
5. The County is advised to ensure compliance with the legal provisions of Section. 107 (2) (b) of the PFM Act, 2012.

## 3.15 County Government of Kilifi

The County's approved budget for the FY 2022/23 is Kshs.15.83 billion, comprising Kshs.6.72 billion (42.5 per cent) and Kshs.9.10 billion (57.5 per cent) allocation for development and recurrent programmes respectively. The highest revenue stream was from cess fee of Kshs.48.22 million, which contributed to 56 per cent of the OSR collected in the first quarter of FY 2022/23.

### 3.15.3 Exchequer Issues

The Controller of Budget approved Kshs.999.31 million in withdrawals from the CRF account during the reporting period which was entirely for recurrent expenditure. The available cash balance in the County Revenue Fund Account on 30th September 2022 was Kshs.1.05 billion.

### 3.15.4 County Expenditure Review

The County spent Kshs.1.27 billion on recurrent programmes during the reporting period and represented 127.7 per cent of the total funds released by the CoB, and points at possible use of owns revenue at source. The expenditure represented 14 per cent of the annual recurrent expenditure budget.

### 3.15.5 Settlement of Pending Bills

At the beginning of FY 2022/23, the County reported the stock of pending bills of Kshs.3.12 billion which comprised of Kshs.1.74 billion for recurrent expenditure and Kshs.1.37 billion for development activities. During the period under review, pending bills amounting to Kshs.120.33 million were settled which were entirely for recurrent expenditure. The outstanding pending bills as of 30th September 2022 were therefore Kshs.3.0 billion.

### 3.15.6 Expenditure by Economic Classification

### 3.15.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.06 billion was 53 per cent of the realised revenue of Kshs.2 billion and included Kshs.550 million attributable to the health sector, which translated to 51.8 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.727.21 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.42.62 million. The manual payroll amounted to 4 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report any expenditure on committee sitting allowances for the 56 MCAs and the Speaker against the annual budget allocation of Kshs.31.95 million.

### 3.15.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.230 million to the Emergency Fund and Kshs.588.9 million to county-established funds in FY 2022/23, which constituted 5.2 per cent of the County's overall budget for the year. Table 3-64 summarises each established Fund's budget allocation and performance during the reporting period.

### 3.15.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.85.64 million against an annual projection of Kshs.1.47 billion, representing 5.8 per cent of the annual target.
2. Failure by County Departments to implement their budgets during the period. Only 5 departments had actual expenditures in the First Quarter of the financial year compared to the established 23 departments.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Mbegu Fund, Education Fund and Car & Mortgage Fund were not submitted to the Controller of Budget.
4. High level of pending bills which amounted to Kshs.3.0 billion as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs. 1.05 billion as of the end of the First Quarter of FY 2022/23.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.42.62 million were processed through the manual payroll and accounted for 4 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The County leadership should be concerned when a department does not implement its budget as it affects service delivery to the public. This is despite the availability of funds in the CRF during the period.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
5. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

### 3.16.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.645.67 million was 48.48 per cent of the annual realised revenue of Kshs.1.33 billion and included Kshs.357.56 million attributable to the health sector, which translated to 55.4 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.595.34 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.50.33 million. The manual payroll amounted to 7.8 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report expenditures on committee sitting allowances for the 34 MCAs and the Speaker against the annual budget allocation of Kshs.58.59 million.

### 3.16.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.58.73 million against an annual projection of Kshs.500 million, representing 11.7 per cent of the annual target.
2. High level of pending bills which amounted to Kshs.780.43 million as of 30th September, 2022. This is despite the availability of cash in the CRF, which stood at Kshs.651.07 million at the end of the First Quarter of FY 2022/23.
3. Use of manual payroll. Personnel emoluments amounting to Kshs.50.33 million were processed through the manual payroll and accounted for 7.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. The County should address its own-source revenue performance to ensure the approved budget is fully financed.

2. The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.
3. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.

### 3.17.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Failure by the Fund Administrator to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The report for the Kisii County Assembly Car Loan and Mortgage Fund were not submitted to the Controller of Budget.
2. High level of pending bills which amounted to Kshs.1.33 billion as of 30th September, 2022. This is despite the

availability of cash in the CRF, which stood at Kshs.831.15 million at the end of the First Quarter of FY 2022/23.

3. The underperformance of own source revenue at Kshs.43.94 million against an annual projection of Ksh.650 million, representing 6.8 per cent of the yearly target.
4. Low absorption of development funds as indicated by the expenditure of Kshs.85.54 million in the First Quarter of FY 2022/23 from the annual development budget allocation of Kshs.3.66 billion. The development expenditure represents 2.3 per cent of the annual development budget.

The County should implement the following recommendations to improve budget execution;

1. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
2. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
3. *The County should address its revenue performance to ensure the approved budget is fully financed.*
4. *The County should identify and address issues causing delays in implementing development projects.*

Sub-programmes with the highest levels of implementation based on absorption rates were: Planning and Administration at 29.7 per cent, Kisumu County Referral Hospital at 26.1 per cent, Assets management at 24.2 per cent, Development and Management of County Administrative systems 22.8 per cent, and Sustainable Access to safe Water at 18.7 per cent of budget allocation.

### 3.18.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation. The report was submitted on 7th November 2022.
2. The underperformance of own-source revenue at Kshs.186.69 million against an annual projection of Kshs. 1.76 billion, representing 10.6 per cent of the annual target.
3. Diversion of funds by the County Treasury and weak budgeting practice as shown in Table 3-83, where the County incurred expenditure over approved exchequer issues in a number of departments.
4. High level of pending bills which amounted to Kshs.1.94 billion as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.189.77 million at the end of the First Quarter of FY 2022/23.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.118.03 million were processed through the

manual payroll and accounted for 11.4 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
5. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

The conditional grants which were not released in the First Quarter of FY 2022/23 were: World Bank - Emergency Locust Response Project (ELRP), DANIDA Grant - Primary Health Care in Devolved Context, UNFPA (9th Country Programme Implementation), Sweden - Agricultural Sector Development Support Programme (ASDSP) II, Grants from World Bank (KDSP), and World Bank (Universal Health).

Figure 3-51 shows the annual trend in own-source revenue collection for the First Quarter from FY 2016/17 to FY 2022/23.

In the First Quarter of FY 2022/23, the County generated a total of Kshs.61.60 million as own-source revenue. This amount represented a decrease of 48.4 per cent compared to Kshs.91.43 million realised in a similar period

in FY 2021/22 and was 10.3 per cent of the annual target and 3.6 per cent of the received equitable share. The OSR includes revenue arrears and penalties charged on the arrears from the previous financial year of Kshs.1.84 million. The top five revenue streams which contributed the highest OSR are shown in Figure 3-52.

**Figure 3-52: Top Streams of Own Source Revenue in the First Quarter of FY 2022/23**

Source: Kitui County Treasury

The decrease in OSR can be attributed to non-operation of county revenue collection system as from 22nd June, 2022, to 29th September, 2022, as well as political undertones during the electioneering period. The highest revenue stream was from hospital user fee of Kshs.46.4 million, which contributed to 75.3 per cent of the OSR collected in the first quarter of FY 2022/23.

### 3.19.3 Exchequer Issues

The Controller of Budget approved Kshs.1.48 billion withdrawals from the CRF account during the reporting period. The amount comprised of Kshs.66.96 million (4.5 per cent) for development programmes and Kshs.1.41 billion (95.5 per cent) for recurrent programmes. The exchequer released in the First Quarter of FY 2022/23 comprised of Kshs.1.19 billion for compensation to employees, Kshs.221.46 million for Operations and Maintenance expenditure and Kshs.66.96 million for development expenditure.

The available cash balance in the County Revenue Fund Account on 30th September 2022 was Kshs.359.42 million.

### 3.19.4 County Expenditure Review

The County spent Kshs.1.63 billion on development and recurrent programmes during the reporting period. This expenditure represented 110.6 per cent of the total funds released by the CoB and comprised of Kshs.73.79 million and Kshs.1.56 billion on development and recurrent programmes, respectively. Expenditure on development programmes represented an absorption rate of 2.2 per cent while recurrent expenditure represented 19.3 per cent of the annual recurrent expenditure budget.

### 3.19.5 Settlement of Pending Bills

At the beginning of the FY 2022/23, the County Assembly reported the stock of pending bill of Kshs.6.1 million all for recurrent expenditure. During the period under review the County Assembly settled pending bill amounting to Kshs.4 million and therefore the outstanding pending bills as of 30th September 2022 was Kshs.2.11 million.

The County Executive did not provide a report on pending bills for the reporting period by the time of publishing this report. However, at the end of the FY 2021/22, the County Executive reported stock of pending bill of Kshs.1.61 billion which comprised of Kshs.385.92 million for recurrent expenditure and Kshs.1.23 billion for development activities. In absence of county executive report, we are not able to determine how much of the pending bill were settled in the reporting period and the outstanding pending bills as of 30th September 2022.

### 3.19.6 Expenditure by Economic Classification

Analysis of expenditure by economic classification indicates that the County Executive spent Kshs.1.20 billion on employee compensation, Kshs.263.91 million on operations and maintenance, and Kshs.73.79 million on development activities. Similarly, the County Assembly spent Kshs.59.84 million on employee compensation, and Kshs.35.29 million on operations and maintenance, as shown in Table 3-86.

### 3.19.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.26 billion was 68.7 per cent of the First Quarter realised revenue of Kshs.1.83 billion and included Kshs.647.32 million attributable to the health sector, which translated to 41.5 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.929.50 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.331.24 million. The manual payroll amounted to 26.3 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report expenditure on committee sitting allowances in the period under review.

### 3.19.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.10 million to the Emergency Fund and Kshs.130 million to county-established funds in FY 2022/23, which constituted 1.2 per cent of the County's overall budget for the year. However, the Emergency fund has not been operationalised to date though it is budgeted for every financial year. The OCoB did not receive quarterly financial returns from the Administrator of the Empowerment Fund as indicated in Table 3-87, this is against the requirement of Section 168 of the PFM Act, 2012.

Analysis of expenditure by department shows that the Department of Agriculture, Water and Irrigation recorded the highest absorption rate of development budget at 8.5 per cent, followed by the Department of Infrastructure, Housing, Transport and Public Works at 0.2 per cent. The Department of Health and Sanitation had the highest percentage of recurrent expenditure to budget at 24.9 per cent while the Department of Gender, Sports and Culture had the lowest at 4.1 per cent.

Expenditure is above exchequer release due to the payment acknowledged as actual yet they have not been paid in the IB system. County Treasury should reconcile their expenditure reports with bank statement to avoid such discrepancies in the future.

The recurrent expenditure ceiling for the County Executive as provided in CARA, 2022 is Kshs.604.30 million and therefore the allocation to the County Executive as provided in the Approved Budget is not in line with the law.

### 3.19.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report from the County Assembly was received on 13th October, 2022, while that from the county Treasury was received on 27th October, 2022.
2. The underperformance of own-source revenue at Kshs.61.60 million against an annual projection of Kshs.600 million, representing 10.3 per cent of the annual target.
3. Non-reconciliation of IFMIS vote book expenditure report with bank statement by the County Treasury and weak budgeting practice as shown in Table 5 where the County incurred expenditure over approved exchequer issues in a number of departments.
4. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Kitui County Empowerment Fund was not submitted to the Controller of Budget.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.331.24 million were processed through the manual payroll and accounted for 26.3 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. High level of pending bills which amounted to Kshs.1.61 billion as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.359.42 million as at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.
2. The County should address its own source revenue performance to ensure the approved budget is fully financed.
3. The County Treasury should reconcile expenditure reports with bank statements before submitting reports to OCOB as well as improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.
4. The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.
5. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County

Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.

6. The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.920.84 million was 36.3 per cent of the First Quarter realised revenue of Kshs.2.52 billion and included Kshs.436.81 million attributable to the health sector, which translated to 47.4 per cent of the total wage bill in the reporting period.

The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.6.23 million on committee sitting allowances for the 31 MCAs and the Speaker against the annual budget allocation of Kshs.44.69 million which was 14.6 per cent of the total wage bill for the Assembly. Sub-programmes with the highest levels of implementation based on absorption rates were: Personnel Services in the Department of Education at 41.4 per cent, directorate communication in the Department of Executive Services at 36.7 per cent, personnel services in the Department of Trade at 34.6 per cent, and personnel services in the department of health and medical services at 28.4 per cent of budget allocation.

### 3.20.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.47.59 million against an annual projection of Kshs.315 million, representing 15.1 per cent of the annual target.
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the County Assembly Car Loan and Mortgage Fund and Emergency Fund for the period under review were not submitted to the Controller of Budget.
3. High level of pending bills which amounted to Kshs.421.10 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.148.33 million at the end of the First Quarter of FY 2022/23.
4. Failure to appropriate unspent cash balances from FY 2021/22 which was Kshs.1.13 billion.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The County should regularise the expenditure by appropriating the unspent balances from the previous financial year through the passage of a supplementary budget.*

### 3.21.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs. 739.54 million was 72.5 per cent of the realised revenue of Kshs.1.02 billion and included Kshs.451.12 million attributable to the health sector, which translated to 61 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.602.86 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.136.68 million. The manual payroll amounted to 18.5 per cent of the total P.E costs and was caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.1.44 million on committee sitting allowances for the 21 MCAs and the Speaker against the annual budget allocation of Kshs.51 million, which was 0.4 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.22,905 per MCA. The County Assembly has established 22 Committees. There were no bills or policy documents processed.

Sub-programmes with the highest levels of implementation based on absorption rates were: Personnel services in the department of Finance & Economic Planning at 94 per cent, and Delivery & Results reporting in the Administration department at 60 per cent of budget allocation.

### 3.21.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Underperformance of own-source revenue at Kshs.147.06 million representing a decrease of 19.6 per cent compared to Kshs.182.84 million realised in a similar period in FY 2021/22 and was 11.4 per cent of the annual target.
2. Diversion of funds by the County Treasury and weak budgeting practice as shown in Table 3-98, where the County incurred expenditure over approved exchequer issues for the Health and Finance departments
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the CoB contrary to Section 168 of the PFM Act, 2012. The reports for the Enterprise Fund, Leasing, Emergency and Executive Car & Mortgage funds still need to be submitted to the Controller of Budget.
4. High level of pending bills which amounted to Kshs.1.35 billion as of 30th September, 2022. This is despite the availability of cash in the CRF, which stood at Kshs.565.82 million by the close of the First Quarter of FY 2022/23.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.136.68 million were processed through the manual payroll and accounted for 18.5 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
5. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the hiring of staff on contract terms and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

Personnel emoluments amounting to Kshs.352.66 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.53.91 million. The manual payroll amounted to 13.3 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll

Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.0.18 million on committee sitting allowances for the 18 MCAs and the Speaker against the annual budget allocation of Kshs.23.36 million which was 0.9 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.3,228 per MCA. The County Assembly were still in the process of establishing Committees, thus they have not yet processed any bills and policy documents.

### 3.22.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.3 million to the Emergency Fund and Kshs.162 million to other county-established funds in FY 2022/23, which constituted 4.5 per cent of the County's overall budget for the year. Table 3-102 summarises each established Fund's budget allocation and performance during the reporting period.

Sub-programmes with the highest levels of implementation based on absorption rates were: Cooperative Development in the Department of Agriculture Livestock, Veterinary & Cooperative Development at 30 per cent. It was the only sub-programme that had expenditure during the First Quarter.

### 3.22.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The final report was submitted on 1st November, 2022.
2. The underperformance of own-source revenue at Kshs.8.95 million against an annual projection of Kshs.120 million, representing 7.5 per cent of the annual target.
3. Use of manual payroll. Personnel emoluments amounting to Kshs.53.91 million were processed through the manual payroll and accounted for 13.3 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
4. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Persons with Disabilities Fund, Gender and Social Development Fund, Youth Development Fund, the County Assembly Car Loan & Mortgage Fund were not submitted to the Controller of Budget.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*
4. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*

## 3.23 County Government of Machakos

### 3.23.1 Overview of FY 2022/23 Budget

The County's approved budget for the FY 2022/23 is Kshs.11.60 billion, comprising Kshs.3.51 billion (30.2 per cent) and Kshs.8.09 billion (69.8 per cent) allocation for development and recurrent programmes, respectively. The approved budget estimate is a decline of 11.4 per cent compared to the previous financial year when the approved budget was Kshs.13.09 billion and comprised of Kshs.4.04 billion towards development expenditure and Kshs.9.05 billion for recurrent expenditure.

To finance the budget, the County expects to receive Kshs.9.16 billion (79 per cent) as the equitable share of revenue raised nationally, generate Kshs.1.69 billion (14.6 per cent) from its own sources of revenue and Kshs.133.49 million (1.2 per cent) as NHIF Reimbursements. The County also expects to receive Kshs.610.44 million (5.3 per cent) as conditional grants, which consist of the Leasing of Medical Equipment Kshs.110.64 million, Kenya Climate Smart Agriculture Project (KCSAP) Kshs.321.47 million, Universal Healthcare in Devolved System Program-DANIDA Kshs.16.34 million, Agriculture Sector Development Support Program-SIDA Kshs.9.32 million, Emergency Locust Response Project-World Bank Kshs.27.67 million and Credit to Finance Locally-Led Climate Change Action Programme (FLLoCA) – World Bank Kshs.125 million.

### 3.23.2 Revenue Performance

In the First Quarter of FY 2022/23, the County received Kshs.1.51 billion as the equitable share of the revenue raised nationally, raised Kshs.197.86 million as own-source revenue and had a cash balance of Kshs.174.82 million from FY 2021/22. The total funds available for budget implementation during the period amounted to Kshs.1.88 billion, as shown in Table 3-57: Kiambu County, Revenue Performance in the First Quarter of FY 2022/23.

**Table 3-105: Machakos County, Revenue Performance in the First Quarter of FY 2022/23**

The County did not factor balances brought forward from FY2021/22 in the approved budget, which makes actual funds available above 100 per cent. The County should regularise this through a supplementary budget to ensure that all funds are spent within the Machakos County Appropriation Act. There was no disbursement of conditional grants in the First Quarter of FY 2022/23.

Figure 3-63 shows the annual trend in own-source revenue collection for the First Quarter from FY 2016/17 to FY 2022/23.

**Figure 3-63: Trend in Own-Source Revenue Collection for the First Quarter of the FY 2016/17 to FY 2022/23**

Source: Machakos County Treasury

In the First Quarter of FY 2022/23, the County generated a total of Kshs.197.86 million as own-source revenue. This amount represented an increase of 27.6 per cent compared to Kshs.155.06 million realised in a similar period in FY 2021/22 and was 11.7 per cent of the annual target and 13.1 per cent of the received equitable share. The top five revenue streams which contributed the highest OSR are shown in Figure 3-37: Top Streams of Own Source Revenue in the First Quarter of FY 2022/23.

**Figure 3-64: Top Streams of Own Source Revenue in the First Quarter of FY 2022/23**

Source: Machakos County Treasury

The highest revenue stream was from Building Plan Approvals of Kshs.77.74 million, which contributed to 39 per cent of the OSR collected in the first quarter of FY 2022/23

The increase in OSR by 27.6 per cent can be attributed to the Rapid Response Initiative that focused on Mavoko quarries enforcement ensuring compliance along most of Mavoko roads. This demonstrates high potential within the County that is affected by high leakages of revenues. The Receiver of Revenue should therefore develop strategies based on lessons learnt during the initiative to sustain high revenue collection.

### 3.23.3 Exchequer Issues

The Controller of Budget approved Kshs1.26 billion in withdrawals from the CRF account during the reporting period. The amount comprised Kshs.12.28 million (1 per cent) for development programmes and Kshs.1.25 billion (99 per cent) for recurrent programmes. The exchequer released in the First Quarter of FY 2022/23 comprised Kshs.1.03 billion for employee compensation, Kshs.218.81 million for Operations and Maintenance expenditure, and Kshs.12.28 million for development expenditure.

The available cash balance in the County Revenue Fund Account on 30th September 2022 was Kshs.623.07 million.

### 3.23.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.03 billion was 54.4 per cent of the realised revenue of Kshs.1.88 billion and included Kshs.715.69 million attributable to the health sector, which translated to 69.8 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.977.46 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.50.32 million. The manual payroll amounted to 4.9 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff and additional staff nominated by the state officers after the assumption of office who were yet to be assigned the UPN. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.7.77 million on committee sitting allowances for the 60 MCAs and the Speaker against the annual budget allocation of Kshs.55 million, which was 9.9 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.42,465 per MCA.

Section 110 of the PFM Act, 2012 establishes the Emergency Fund while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.202 million to county-established funds in FY 2022/23, constituting 1.8 per cent of the County's overall budget for the year. Table 3-59: Performance of County Established Funds as of 30th September 2022 summarises each established Fund's budget allocation and performance during the reporting period.

Analysis of expenditure by department shows that the Department of Agriculture, Food Security and Co-operative Development recorded the highest absorption rate of development budget at 2.2 per cent, followed by the Department of Health Services and Emergency Services at 0.5 per cent. The Department of Health Services and Emergency Services had the highest percentage of recurrent expenditure to budget at 21.2 per cent, while the Departments of County Public Service Board, Roads, Transport and Public Works, Water, Irrigation, Environment and Natural Resources and Trade, Industrialization and Innovation had no expenditure.

This trend reveals that the County does not use respective departmental vote allocations in settling employees' compensation since each of the four departments has an employee compensation vote which was settled during the reporting period, but the reports show nil expenditure. Further, the County reported nil expenditure on departments which had received exchequer releases duly approved by the COB.

The allocation for recurrent expenditure for the Assembly is above the stipulated ceilings in CARA, 2022. The FY 2022/23 recurrent budget is Kshs.885.13 million, while the recommended ceiling is Kshs.865.13 million.

Sub-programmes with the highest levels of implementation based on absorption rates were: Machakos Municipality in the Department of Energy, Lands, Housing and Urban Development at 36 per cent, Machakos Level 5 in the Department of Health and Emergency Services at 30 per cent, Hospitality Services Section in the Department of Office of the Governor at 28 per cent, and Revenue Management at Finance and Economic Planning 23 per cent of budget allocation.

### 3.23.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.197.86 million against an annual projection of Kshs.1.69 billion, representing 11.7 per cent of the annual target.
2. Diversion of funds by the County Treasury and poor budgeting practice as shown in Table 3-108, where the County incurred expenditure over approved exchequer issues in a number of departments.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Bursary Fund, Executive Car loan Fund - Staff, MCAs Mortgage loan Fund – County Assembly Mortgage loan for Staff Fund, were not submitted to the Controller of Budget.
4. High level of pending bills which amounted to Kshs.2.88 billion as of 30th September 2022. This is despite the availability of cash in the CRF, which stood at Kshs.623.07 million at the end of the First Quarter of FY 2022/23.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.50.32 million were processed through the manual payroll and accounted for 4.9 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. Failure to budget for the unspent cash balance from FY 2021/22, which amounted to Kshs.174.82 million.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
5. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract terms and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*
6. *The County Treasury should prepare a supplementary budget and incorporate the unspent cash balances from the previous financial years.*

The county did not factor cash balances brought forward from FY2021/22 in the original budget, which makes actual funds available to be above 100 per cent. The County should regularise this through a supplementary budget to ensure that all funds are spent within the Makueni County Appropriation Act, 2022. The County did not receive any conditional grants in the First Quarter of FY 2022/23.

Figure 3-66 shows the annual trend in own-source revenue collection for the First Quarter from FY 2016/17 to FY 2022/23.

### 3.24.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.989.49 million was 52.1 per cent of the annual realised revenue of Kshs.1.39 billion and included Kshs.538.57 million attributable to the health sector, which translated to 54.4 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.1.19 billion were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those processed through manual payroll were Kshs.113.63 million. The manual payroll amounted to 11.1 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.12.53 million on committee sitting allowances for the 39 MCAs and the Speaker against the annual budget allocation of Kshs.40 million which was 11.4 per cent of the total wage bill for the Assembly. Department of County Attorney's Office had the lowest at 3.6 per cent. The Sand Authority had an expenditure above exchequer issues at 253 per cent, since department spends outside IFMIS and the expenditure reports are later updated into the financial management system.

The budget allocation for recurrent expenditure for the Assembly and the Executive is within the ceilings in CARA, 2022.

Sub-programmes with the highest levels of implementation based on absorption rates were: Land, Crop development & productivity in the Department of Agriculture, livestock and fisheries at 38.5 per cent, General administration & planning in the Department of Education and ICT at 23.7 per cent, General administration & planning in the Department of Health at 19.6 per cent, and Public financial management program in County assembly at 16.5 per cent of budget allocation.

### 3.24.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.144.24 million against an annual projection of Kshs.850 million, representing 17 per cent of the annual target.
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Scholarship Fund, Emergency Relief- fund, Executive Car loan Fund, Tetheka Fund, County Assembly Mortgage loan and Car loan Funds

were not submitted to the Controller of Budget.

3. High level of pending bills which amounted to Kshs.657.76 million as of 30th September 2022.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.113.63 million were processed through the manual payroll and accounted for 11.1 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. Failure to include balances brought forward from FY2021/22 in the approved budget, which could lead to county expenditure outside the approved budget for FY2022/23 thereby resulting expenditure above the budget.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*
5. *The county should include the balances brought forward into the budget through a supplementary budget as stipulated in PFM Act 2012*

### 3.25.1 Overview of FY 2022/23 Budget

The County's approved budget for the FY 2022/23 is Kshs.11.62 billion, comprising Kshs.4.22 billion (36.3 per cent) and Kshs.7.40 billion (63.7 per cent) allocation for development and recurrent programmes, respectively. ### 3.25.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.53 billion was 80.6 per cent of the annual realised revenue of Kshs.1.87 billion and included Kshs.622.89 million attributable to the health sector, which translated to 40.7 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.1.50 billion were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs. 27.93 million. The manual payroll amounted to 1.8 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system.

### 3.25.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund, while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.120 million to the Bursary Fund in FY 2022/23. However, the Fund Administrator did not submit the quarterly financial return which is against the requirement of Section 168 of the PFM Act, 2012.

### 3.25.9 Development Expenditure

### 3.25.12 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 27th October 2022.
2. The underperformance of own-source revenue at Kshs.25.71 million against an annual projection of Kshs.255.44 million, representing 10.1 per cent of the annual target;
3. Use of manual payroll. Personnel emoluments amounting to Kshs.27.93 million were processed through the manual payroll and accounted for 1.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls; and

The County should implement the following recommendations to improve budget execution;

1. The County Treasury should ensure timely preparation and submission of financial reports to the Office of the

Controller of Budget in line with Section 166 of the PFM Act, 2012.

2. The County should address its own source revenue performance to ensure the approved budget is fully financed.
3. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the recruitment of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.

Expenditure on compensation to employees of Kshs.520.48 million was 42.4 per cent of the annual realised revenue of Kshs.1.23 billion and included Kshs.239.9 million attributable to the health sector, which translated to 46.1 per cent of the total wage bill in the reporting period.

The manual payroll amounted to 30.2 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll

Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report expenditures on committee sitting allowances for the 33 MCAs and the Speaker against the annual budget allocation of Kshs.35 million.

### 3.26.12 Budget Execution by Programmes and Sub-Programmes

The County did not have an approved programmes-based budget during the period under review.

### 3.26.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Lack of approved budget for the financial year 2022/23. The County operated on a Vote on Account, comprising of half the recurrent submitted/draft estimates. The affected implementation of development programmes in the period.
2. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 25th October 2022.
3. The underperformance of own-source revenue at Kshs.25.91 million against an annual projection of Kshs.170 million, representing 15.2 per cent of the annual target.
4. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Emergency Fund and Assembly Car Loan Fund were not submitted to the Controller of Budget.
5. High level of pending bills which amounted to Kshs.924.33 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.623.91 million at the end of the First Quarter of FY 2022/23.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.157.16 million were processed through the manual payroll and accounted for 30.2 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County Assembly and the County Executive should come up with ways to ensure the budget and key planning documents are prepared and approved in line with the timelines in law.*
2. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
3. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
4. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
5. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid*

without delay in the remaining period of the financial year.

6. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.

Sub-programmes with the highest levels of implementation based on absorption rates were: Legislation and Representation in the Department of Assembly at 21 per cent, Agricultural Training in the Department of Agriculture at 34 per cent, Human resource in the Department of Public Service, Administration and Legal Affairs at 27 per cent, and General Administration at 21 per cent of budget allocation.

### 3.27.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.44.04 million against an annual projection of Kshs.600 million, representing 7.3 per cent of the annual target.
2. High level of pending bills which amounted to Kshs.1.16 billion as of 30th September 2022.
3. Use of manual payroll. Personnel emoluments amounting to Kshs.60 million were processed through the manual payroll and accounted for 4.1 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
4. Failure to comply with the PFM, 2012 requirement of allocating a minimum of 30 per cent of the budget to development expenditure. The allocation to development expenditure was 29.5 per cent of the budget.

The County should implement the following recommendations to improve budget execution;

1. The County should address its own source revenue performance to ensure the approved budget is fully financed.
2. The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.
3. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.
4. The County should ensure the budget allocation to development expenditure is maintained at a minimum of 30 per cent of the budget in the medium term in line with Section 107 (2) (b) of the PFM Act, 2012.

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Analysis of expenditure by department shows that the Department of Medical Health Services recorded the highest absorption rate of the recurrent budget at 21.7per cent, followed by the Department of Public Service Management at 20 per cent. A number of departments reported expenditures above exchequer issues which is an indication of a weak internal control system and diversion of funds by the County Treasury.

Sub-programmes with the highest levels of implementation based on absorption rates were: Peace Building Initiatives in the department of county Executive at 55 per cent, Disaster Management Services in the Department of Environment, Natural Resource and Disaster Management at 49 per cent, Urban Water Supply & Management in the Department of Water And Energy at 47 per cent, Enhanced Management, Coordination & Supervision in the Department of Public Service Management at 47 per cent of budget allocation.

### 3.28.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.70.37 million against an annual projection of Kshs.350 million, representing 20.1 per cent of the annual target.
2. Diversion of funds by the County Treasury and poor budgeting practice as shown in Table 3-130, where the County incurred expenditure over approved exchequer issues in a number of departments.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Migori County Executive Car Loan and Mortgage Loan Scheme Fund, Migori County Alcoholic Drink Fund and Migori assembly Car Loan and Mortgage Fund were not submitted to the Controller of Budget.
4. High level of pending bills which amounted to Kshs.605.26 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.765.07 million at the end of the First Quarter of FY 2022/23.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.36.43 million were processed through the manual payroll and accounted for 4.7 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
5. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

## 3.29 County Government of Mombasa

### 3.29.1 Overview of FY 2022/23 Budget

The County's approved Original Budget for the FY 2022/23 is Kshs.13.70 billion, comprising Kshs. 4.40 billion (32.1 per cent) and Kshs.9.30 billion (67.9 per cent) allocation for development and recurrent programmes, respectively. The approved budget estimate is a decline of 6.2 per cent compared to the previous financial year when the approved 3rd Supplementary budget was Kshs.14.60 billion and comprised of Kshs.4.43 billion towards development expenditure and Kshs.10.17 billion for recurrent expenditure.

To finance the budget, the County expects to receive Kshs.7.57 billion (55.2 per cent) as the equitable share of revenue raised nationally, generate Kshs.4.81 billion (35.1 per cent) from own source of revenue. The County

The cash balances for conditional grants from FY 2021/22 amounted to Kshs.39.32 million and comprised Kshs.10.01 million for the Road Maintenance Levy Fund, Kshs.23.08 million for DANIDA Grant, Kshs.2.84 million for COVID 19 Grant and Kshs.1.37 million of ASDSP II. These carried-forward conditional grants were not included in financing the budget.

### 3.29.2 Revenue Performance

### 3.29.8 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue.

Expenditure on compensation to employees of Kshs.982.62 million was 39.9 per cent of the realised revenue in the First Quarter of Kshs.2.46 billion and included Kshs.718.87 million attributable to the health sector, which translated to 73.2 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.934.26 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.87.54 million. The manual payroll amounted to 8.6 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.8.39 million on committee sitting allowances for the 43 MCAs and the Speaker against the annual budget allocation of Kshs.41 million, which was 15.2 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.65,060 per MCA.

### 3.29.14 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.568.87 million against an annual projection of Kshs. 568.87 million, representing 11.8 per cent of the annual target.
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, contrary to the requirement of Section 168 of the PFM Act, 2012. The reports for the Educational Scholarship Fund, Disaster Management Fund and County Assembly car loan and Mortgage Fund were not submitted to the Controller of Budget.
3. High level of pending bills which amounted to Kshs.5.14 billion as of 30th September, 2022. This is despite the availability of cash in the CRF, which stood at Kshs.629.29 million at the end of the First Quarter of FY 2022/23.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.87.54 million were processed through the manual payroll and accounted for 8.6 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. The County Executive had an outstanding payment against an overdraft facility with Equity Bank that had accumulated to Kshs. 856.09 million. The overdraft facility was converted into a term loan of Kshs.745.30 million. This is in contravention of Article 212 of the Constitution 2010 as the national government did not guarantee it.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff recruitment on contract terms and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*
5. *The County should regularise the borrowing in line with the constitutional provisions and ensure that it seeks national government guarantees, as this may lead to the stoppage of funds in line with Sections 96 and 97 of the PFM Act, 2012.*

## 3.30 County Government of Murang'a

### 3.30.1 Overview of FY 2022/23 Budget

### 3.30.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.701.06 million was 44.1 per cent of the realised revenue of Kshs.1.59 billion in the period under review and included Kshs.506.85 million attributable to the health sector, which translated to 72.3 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.620.11 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.80.94 million. The manual payroll amounted to 11.5 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system. Therefore, the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.6.51 million on committee sitting allowances for the 54 MCAs and the Speaker against the annual budget allocation of Kshs.57 million, which was 26.7 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.40,196 per MCA. The County Assembly has established 20 Committees, which processed two bills during the reporting period.

### 3.30.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund, while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.413 million to county-established funds in FY 2022/23, constituting 4.3 per cent of the County's overall budget for the year. Table 3-59: Performance of County Established Funds as of 30th September 2022 summarises each established Fund's budget allocation and performance during the reporting period.

Sub-programmes with the highest levels of implementation based on absorption rates were: the Education Intervention sub -Program in the Department of education and training at 44.8 per cent, Budget Implementation and Monitoring in the Department of Finance and Planning at 37 per cent, County Executive and Coordination at 22.1 per cent in the department of Governorship, General Administration Planning and support at 19.9 per cent in the Department of Health and Sanitation of budget allocation.

### 3.30.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on the 25th of October, 2022.
2. The underperformance of own-source revenue at Kshs.60.09 million against an annual projection of Kshs.1.5 billion, representing 4 per cent of the annual target. The OSR target is unrealistic, and the county should revise the target during the supplementary budget process.
3. Diversion of funds by the County Treasury and poor budgeting practice as shown in Table 3-60: Kiambu County, Budget Allocation and Absorption Rate by Department, where the County incurred expenditure over approved exchequer issues in a number of departments.
4. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the Small Traders Empowerment Fund and Murang'a County Assembly Car Loan and Mortgage Scheme Fund.
5. High level of pending bills which amounted to Kshs.2.69 billion as of 30th September 2022. This is despite the availability of cash in the CRF, which stood at Kshs. 477.86 million as of the end of the First Quarter of FY 2022/23.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.80.94 million were processed through the manual payroll and accounted for 11.5 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
7. Low absorption of development funds as indicated by the expenditure of Kshs.181.23 million in FY 2022/23 from the annual development budget allocation of Kshs.2.85 billion. The development expenditure represented 6.4 per cent of the annual development budget.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed. Further, the County should set realistic local revenue targets to avoid a hidden budget deficit that could lead to pending bills.*
3. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the*

approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.

4. The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.
5. The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.
6. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.
7. The County should identify and address issues causing delays in implementing development projects.

### 3.31.5 Settlement of Pending Bills

At the beginning of the FY 2022/23, the County Assembly reported pending bills of Kshs.186.59 million and Kshs.13.86 million for recurrent and development expenditures, respectively but did not settle any in the period under review.

According to the Special Audit Report of the Auditor-General, the stock of pending bills as of 30th June 2020 totalled Kshs.85.72 billion, which was consolidated for recurrent and development activities. ### 3.31.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Personnel emoluments amounting to Kshs.2.55 billion were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.73.42 million. The manual payroll amounted to 2.8 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report expenditures on committee sitting allowances for the period under review.

### 3.31.11 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.1.24 billion against an annual projection of Kshs.19.25 billion, representing 6.8 per cent of the annual target.
2. High level of pending bills which amounted to Kshs.100.36 billion as of 30th September, 2022. This is despite the availability of cash in the CRF, which stood at Kshs.495.40 million at the end of the First Quarter of FY 2022/23.
3. Delay in approval of FY 2022/23 budget Estimates. The County was running on Vote on Account in the reporting period and, therefore, could not implement any development programmes.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own-source revenue performance to ensure the approved budget is fully financed.*
2. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
3. *The county should fast-track approval of the FY 2022/23 budget Estimates in order to execute the development budget.*

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.63 billion was 44.4 per cent of the annual realised revenue of Kshs.3.66 billion and included Kshs.827.38 million attributable to the health sector, which translated to 50.9 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.936.08 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.490.64 million. The manual payroll amounted to 42.4 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.1.37 million on committee sitting allowances for the 83 MCAs and the Speaker against the annual budget allocation of Kshs.101 million and was 2.9 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.5,486 per MCA. The County Assembly has established 23 Committees and during the period, and no bills nor policies documents were processed.

### 3.32.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

Sub-programmes with the highest levels of implementation based on absorption rates were: SP 1.2 Personnel Services in the Department of Nakuru Municipality at 88.5 per cent, SP 1.1 Administration and Planning in the Department of Nakuru Municipality at 71.1 per cent and Administration and Planning in the Department of Office of the Governor and Deputy Governor at 52.2 per cent of budget allocation.

### 3.32.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 1st November 2022.
2. Failure by the County Treasury to budget for the cash balance of Kshs.991.82 million from FY 2021/22.
3. The underperformance of own-source revenue at Kshs.183.98 million against an annual projection of Kshs.1.98 billion, representing 9.3 per cent of the annual target.
4. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for all established Funds were not submitted to the Controller of Budget.
5. High level of pending bills which amounted to Kshs.724.04 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.1.95 billion as at the end of the First Quarter of FY 2022/23.
6. Use of manual payroll. Personnel emoluments amounting to Kshs.490.64 million were processed through the manual payroll and accounted for 42.4 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.
2. The County should prepare a supplementary budget and appropriate the cash balance from FY 2021/22.
3. The County should address its own source revenue performance to ensure the approved budget is fully financed.
4. The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.
5. The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.
6. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.11 billion was 46.3 per cent of the realised revenue of Kshs.2.39 billion and included Kshs.660.35 million attributable to the health sector, translating to 59.5 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.995.04 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.111.92 million. The manual payroll amounted to 10.1 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system.

The County Assembly spent Kshs.2.42 million on committee sitting allowances for the 40 MCAs and the Speaker against the annual budget allocation of Kshs.44.92 million, which was 2.9 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.20,193 per MCA.

### 3.33.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund, while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Ksh.126 million to county-established funds in FY 2022/23, which constituted 1.5 per cent of the County's overall budget for the year. Table 3-152 summarises each established Fund's budget allocation and performance during the reporting period.

Sub-programmes with the highest levels of implementation based on absorption rates were: Free Primary Education in the Department of Education Research at 33.5 per cent and Vocational Training and Communicable Disease Control in the Department of Health and Sanitation at 26.2 per cent of budget allocation.

### 3.33.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 27th October, 2022.
2. The underperformance of own-source revenue at Kshs.37.07 million against an annual projection of Kshs.80.31 million, representing 11.5 per cent of the annual target.
3. High level of pending bills which amounted to Kshs.753.25 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.583.04 million at the end of the First Quarter of FY 2022/23.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.111.92 million were processed through the manual payroll and accounted for 10.1 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

## 3.34 County Government of Narok

### 3.34.1 Overview of FY 2022/23 Budget

The County's approved budget for the FY 2022/23 is Kshs.12.11 billion, comprising Kshs.3.9 billion (32.2 per cent) and Kshs.8.21 billion (67.8 per cent) allocation for development and recurrent programmes, respectively. The

approved budget estimate is a decline of 9.3 per cent compared to the previous financial year when the approved supplementary budget was Kshs.13.35 billion and comprised of Kshs.4.01 billion towards development expenditure and Kshs.9.34 billion for recurrent expenditure.

To finance the budget, the County expects to receive Kshs.8.84 billion (73 per cent) as the equitable share of revenue raised nationally, generate Kshs.2.43 billion (20.1 per cent) from its own sources of revenue. The County also expects to receive Kshs.833.60 million (6.9 per cent) as conditional grants; however, a breakdown of the condition grants was not provided in the budget.

### 3.34.2 Revenue Performance

In the First Quarter of FY 2022/23, the County received Kshs.1.46 billion as the equitable share of the revenue raised nationally and raised Kshs.941.52 million as own-source revenue. The total funds available for budget implementation during the period amounted to Kshs.2.4 billion, as shown in Table 3-155.

### 3.34.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.1.07 billion was 64.3 per cent of the realised revenue of Kshs.2.4 billion and included Kshs.329.30 million attributable to the health sector, which translated to 30.7 per cent of the total wage bill in the reporting period. Any significant increase in Personnel Emoluments (P.E. expenditure should be explained) compared to the previous financial year.

Personnel emoluments amounting to Kshs.1.07 billion were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.2.37 million. The manual payroll amounted to 0.2 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report any expenditure on committee sitting allowances for the 48 MCAs and the Speaker against the annual budget allocation of Kshs.54.81 million.

### 3.34.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 29th October 2022.
2. High level of pending bills which amounted to Kshs.962.57 million as of 30th September 2022. This is despite the availability of cash in the CRF, which stood at Kshs.439.3 million at the end of the First Quarter of FY 2022/23.
3. Fund administrators failed to submit quarterly financial and non-financial reports to the COB contrary to Section 168 of the PFM Act, 2012. The reports for the Scholarship Fund, Emergency Fund, Maasai Mara Community Support Fund, NAKAEB, and the Car loan & Mortgage Fund were not submitted to the Controller of Budget.

The County should implement the following recommendations to improve budget execution;

1. The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.
2. The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.
3. The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.

Programmes with the highest levels of implementation based on absorption rates were: General administration and support services at 32.7 per cent, Budget formulation and management at 32.5 per cent both in the Department of Finance and economic planning, General administration and support services in the Department of Roads, transport and public works at 29.0 per cent, and General administration and support services in the Department of Health services at 25.9 per cent of budget allocation.

### 3.35.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 3rd November 2022.
2. The underperformance of own-source revenue at Kshs.11.88 million against an annual projection of Kshs.265.00 million, representing 4.5 per cent of the annual target.
3. Diversion of funds by the County Treasury, weak poor budgeting practice, and possible usage of revenue collection at source as shown in Table 5 where the County incurred expenditure over approved exchequer issues in a number of departments.
4. High level of pending bills which amounted to Kshs.175.13 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.636.33 million at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

### 3.36.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 03rd November 2022.
2. The underperformance of own-source revenue at Kshs.74.89 million against an annual projection of Kshs.660 million, representing 11.3 per cent of the annual target.
3. Diversion of funds by the County Treasury and weak budgeting practice as shown in Table 3-170, where the County incurred expenditure over approved exchequer issues in a number of departments.
4. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012.
5. High level of pending bills which amounted to Kshs.1.29 billion as of 30th September 2022.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
4. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
5. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

### 3.37.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.892.42 million was 44 per cent of the realised revenue of Kshs.2.03 billion and included Kshs.533.75 million attributable to the health sector, which translated to 59.8 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.829.73 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.62.69 million. The manual payroll amounted to 7 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.3.94 million on committee sitting allowances for the 42 MCAs and the Speaker against the annual budget allocation of Kshs.50.67 million which was 7.8 per cent of the allocation. The average monthly sitting allowance was Kshs.31,250 per MCA. The County Assembly has established 22 Committees and during the period, no bill or policy document was processed.

### 3.37.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Diversion of funds by the County Treasury and weak budgeting practice as shown in Table 3-176, where the County incurred expenditure over approved exchequer issues in a number of departments.
2. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is

against the requirement of Section 168 of the PFM Act, 2012. The reports for the Elimu Fund, Enterprise Fund and Executive and Assembly Car & Mortgage funds were not submitted to the Controller of Budget.

3. High level of pending bills which amounted to Kshs.449.17 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.472.95 million as at the end of the First Quarter of FY 2022/23.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.62.69 million were processed through the manual payroll and accounted for 7 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

### 3.38.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.479.17 million was 26.3 per cent of the First Quarter realised revenue of Kshs.1.82 billion and included Kshs.201.32 million attributable to the health sector, which translated to 42.3 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.435.45 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.43.72 million. The manual payroll amounted to 10 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

Sub-programmes with the highest levels of implementation based on absorption rates were: procurement at 49.29 per cent, Public finance and Accounting at 43.72 per cent, Resource Mobilization at 39.77 per cent, and internal audit at 33.82 per cent of budget allocation.

### 3.38.12 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 04th November 2022.
2. Diversion of funds by the County Treasury and poor budgeting practice as shown in Table 3-180, where the County incurred expenditure over approved exchequer issues in a number of departments.
3. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012. The reports for the car and mortgage Fund, Bursary Fund and Emergency Fund were not submitted to the Controller of Budget.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.43.72 million were processed through the manual payroll and accounted for 10 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. High level of pending bills which amounted to Kshs.790.95 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.425.33 million at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
3. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised*

to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.

5. The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.

### 3.39.5 Settlement of Pending Bills

### 3.39.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.646.57 million was 40.5 per cent of the First Quarter realised revenue of Kshs.1.6 billion and included Kshs.329.38 million attributable to the health sector, which translated to 50.9 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.537.89 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.111.64 million. The manual payroll amounted to 17.3 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.2.16 million on committee sitting allowances for the 43 MCAs and the Speaker against the annual budget allocation of Kshs.52.22 million, and was 4.9 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.16,378 per MCA. The County Assembly has established 23 Committees; no bills or policy documents were processed during the period.

### 3.39.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.71.80 million to the Emergency Fund and Kshs.307.82 million to the other county-established funds in FY 2022/23, constituting 4.3 per cent of the County's overall budget for the year. Table 3-184 summarises each established Fund's budget allocation and performance during the reporting period.

Analysis of expenditure by department shows that the Department of Agriculture, Food, Livestock and Fisheries had the highest percentage of recurrent expenditure to budget at 17.8 per cent, while the County Assembly had the lowest at 4.8 per cent. A number of departments reported expenditure above exchequer issues which is an indication of weak internal controls and the diversion of funds by the County Treasury.

The allocation for recurrent expenditure for the County Executive and the County Assembly is within the CARA, 2022 set ceiling.

The report on budget execution by programmes and Sub-programmes is based on the half-year budget, which was available for spending during the period under review. Sub-programmes with the highest levels of implementation based on absorption rates were: Preventive, Promotive and Rehabilitative in the Department of the County Health

Services at 41.0 per cent, Economic Planning Services in the Department of Finance and Economic Planning at 36.8 per cent, Internal Audit in the Department of Finance and Economic Planning at 33.9 per cent, and Budget Services in the Department of Finance and Economic Planning at 32.0 per cent of budget allocation.

### 3.39.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.98.58 million against an annual projection of Kshs.581.0 million, representing 17.0 per cent of the annual target.
2. Diversion of funds by the County Treasury and weak budgeting practice as shown in Table 3-185, where the County incurred expenditure over approved exchequer issues in a number of departments.
3. High level of pending bills which amounted to Kshs.831.98 million as of 30th September 2022, despite the availability of cash in the CRF, which stood at Kshs.795.63 million as of the end of the First Quarter of FY 2022/23.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.537.89 million were processed through the manual payroll and accounted for 17.3 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. Failure by Fund Administrators to submit the quarterly financial statements to the OCOB contrary to Section 168 of the PFM Act, 2012.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff recruitment on contract terms and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*
5. *The CECMF should ensure all Fund Administrators prepare and submit financial reports in line with the law.*

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.815.78 million was 65.9 per cent of the realised revenue of Kshs.1.23 billion and included Kshs.407.25 million attributable to the health sector, which translated to 50 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.800.50 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.15.28 million. The manual payroll amounted to 1.9 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report expenditure on committee sitting allowances for the 34 MCAs and the Speaker against the annual budget allocation of Kshs.15 million.

### 3.40.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund, while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.10 million to the Emergency Fund and Kshs.219 million to County-established funds in FY 2022/23, constituting 3.0 per cent of the County's overall budget for the year. Table 3-189 summarises each established Fund's budget allocation and performance during the reporting period.

### 3.40.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.51.66 million against an annual projection of Kshs.400 million, representing 12.9 per cent of the annual target.
2. High level of pending bills which amounted to Kshs.1.16 billion as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.86.46 million as at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

### 3.42.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.833.50 million was 79.9 per cent of the realised revenue of Kshs.1.04 billion and included Kshs.495.57 million attributable to the health sector, which translated to 59.4 per cent of the total wage bill in the reporting period.

system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.607,100 on committee sitting allowances for the 23 MCAs and the Speaker against the annual budget allocation of Kshs.86.16 million, which was 1.2 per cent of the total wage bill for the Assembly. Sub-programmes with the highest levels of implementation based on absorption rates were: Monitoring and Evaluation services in the County Public Service Board at 100 per cent, Human Resource Management in the Department of Medical Services at 36.1 per cent, Administration, Planning and support services at the Department of Education and Vocational Training at 34.5 per cent, and General Administration and Support Services at 33.4 per cent of budget allocation in the Department of Trade and Revenue Mobilization.

### 3.42.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. The underperformance of own-source revenue at Kshs.37.69 million against an annual projection of Kshs.350 million, representing 10.8 per cent of the annual target.
2. Failure by Fund Administrator of the County Assembly Car and Mortgage Fund to submit quarterly financial and non-financial reports to the COB, which is against the requirement of Section 168 of the PFM Act, 2012.
3. High level of pending bills which amounted to Kshs.689.21 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.419.98 million at the end of the First Quarter of FY 2022/23.
4. Use of manual payroll. Personnel emoluments amounting to Kshs.73.41million were processed through the manual payroll and accounted for 8.8 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
5. Failure to budget for the unspent cash balances from the previous financial year which amounted to Kshs.239.77 million.

The County should implement the following recommendations to improve budget execution.

1. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
2. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
3. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
4. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*
5. *The County is advised to prepare a supplementary budget in order to budget for the unspent cash balance from the previous financial year.*

### 3.43.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.856.32 million was 26.3 per cent of the First Quarter realised revenue attributed to Compensation of employees of Kshs.3.26 billion and included Kshs.341.27 million attributable to the health sector, translating to 39.9 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.810.92 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.45.40 million. The manual payroll amounted to 6.2 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.0.3 million on committee sitting allowances for the 39 MCAs and the Speaker against the annual budget allocation of Kshs.50.85 million, which was 0.3 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.2,500 per MCA.

### 3.43.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.89.79 million to county-established funds in FY 2022/23, constituting 1 per cent of the County's overall budget for the year. Table 3-200 summarises each established Fund's budget allocation and performance during the reporting period.

### 3.43.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 25th October 2022.
2. Failure by the County Treasury to budget for the cash balance of Kshs.574.89 million from FY 2021/22.
3. The underperformance of own-source revenue at Kshs.101.70 million against an annual projection of Kshs.629.50 million, representing 16.2 per cent of the annual target.
4. Diversion of funds by the County Treasury and poor budgeting practice as shown in Table 3-201, where the County incurred expenditure over approved exchequer issues in some departments.
5. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB, contrary to Section 168 of the PFM Act, 2012. The reports for the Trans-Nzoia County Elimu Bursary Fund and Trans-Nzoia County Car and Mortgage Fund were not submitted to the Controller of Budget.
6. High level of pending bills, which amounted to Kshs.1.02 billion as of 30th September 2022. This is despite the availability of cash in the CRF, which stood at Kshs.717 million at the end of the First Quarter of FY 2022/23.
7. Use of manual payroll. Personnel emoluments amounting to Kshs.45.40 million were processed through the manual payroll and accounted for 6.2 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should prepare a supplementary budget and appropriate the cash balance from FY 2021/22.*
3. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
4. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
5. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
6. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
7. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff recruitment on contract terms and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

Analysis of expenditure by department shows that the Department of Trade, Gender and Youth Affairs recorded the highest absorption rate of development budget at 73.3 per cent while all the other departments did not report expenditure on development activities. The Department of Education, Sports and Social Protection had the highest percentage of recurrent expenditure to budget at 64.1 per cent. Three departments, namely; Office of the County Attorney, Infrastructure, Transport and Public Works, and Office of the Deputy Governor did not report any expenditure.

Further analysis shows the percentage of expenditure to exchequer issues for several departments are above 100 per cent. This is generally because a substantial number of transactions may appear as having been paid at IFMIS but in practice they are awaiting funding at IB level resulting in the variance.

Sub-programmes with the highest levels of implementation based on absorption rates were: Turkana Education and Skill Development Fund in the Department of Education, Sports and Social Protection at 100 per cent, Cooperative Development Fund in the Department of Trade, Gender and Youth Affairs at 100 per cent, Exit Meetings Per Department in the Department of County Public Service Board at 63.9 per cent, and Youth and Women Fund at 48.1 per cent of budget allocation.

### 3.44.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the

timely preparation of the budget implementation. The report was submitted on 1st November, 2022.

2. The underperformance of own-source revenue at Kshs.34.02 million against an annual projection of Kshs.198 million, representing 17.2 per cent of the annual target.
3. Diversion of funds by the County Treasury and weak budgeting practice as shown in Table 3-206, where the County incurred expenditure over approved exchequer issues in a number of departments.
4. High level of pending bills which amounted to Kshs.2.17 billion as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.5.04 billion as at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

The outstanding pending bills as of 30th September 2022 were therefore Kshs.690.5 million.

### 3.45.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Expenditure on compensation to employees of Kshs.895.36 million was 33.6 per cent of the realised revenue in the First Quarter of Kshs.2.67 billion and included Kshs.360.03 million attributable to the health sector, which translated to 40.2 per cent of the total wage bill in the reporting period.

Personnel emoluments amounting to Kshs.738.59 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.156.67 million. The manual payroll amounted to 17.5 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly spent Kshs.3.89 million on committee sitting allowances for the 45 MCAs and the Speaker against the annual budget allocation of Kshs.45 million and was 3.2 per cent of the total wage bill for the Assembly. The average monthly sitting allowance was Kshs.28,436 per MCA.

### 3.45.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act, 2012 establishes the Emergency Fund while Section 116 of the PFM Act, 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated a total of Kshs.25 million to the Emergency Fund and Kshs.487.6 million to the other County-established funds in FY 2022/23, which constituted 5.0 per cent of the County's overall budget for the year. Table 3-210 summarises each established Fund's budget allocation and performance during the reporting period.

Analysis of expenditure by department shows that the Department of Public Service Management had the highest percentage of recurrent expenditure to budget at 43.7 per cent while the Department of Budget and Economic Planning had the lowest at 3.6 per cent.

The following departments spend more than the exchequer issues; Devolution and Public Administration at 385.5 per cent, Cooperatives and Enterprise Development at 220.3 per cent, Eldoret Municipality at 182.9 per cent, County Public Service Board at 133.3 per cent, ICT and E-Government at 130.8 per cent, Office of the Governor at 117.7 per cent and Public Service Management at 113.7 per cent. This is an indication of a weak internal control system and the diversion of funds by the County Treasury.

The allocation for recurrent expenditure for the Assembly and the Executive is within the budget ceilings prescribed in CARA, 2022.

Sub-programmes with the highest levels of implementation based on absorption rates were: Administrative Support Services in the Department of Public Service Management at 47.4 per cent, Employee Support Services in the Governor's office at 23.7 per cent and Administrative Support Services in the department of Roads, Transport, Energy and Public Works at 21.2 per cent of budget allocation.

### 3.45.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Late submission of financial reports by the County Treasury to the Controller of Budget, which affected the timely preparation of the budget implementation report. The report was submitted on 7th November 2022.
2. The underperformance of own-source revenue at Kshs.111.02 million against an annual projection of Kshs. 1.4 billion, representing 7.9 per cent of the annual target.
3. Diversion of funds by the County Treasury and weak budgeting practice as shown in Table 3-211, where the County incurred expenditure over approved exchequer issues in a number of departments.
4. High level of pending bills which amounted to Kshs.690.5 million as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.1.08 billion as at the end of the First Quarter of FY 2022/23.
5. Use of manual payroll. Personnel emoluments amounting to Kshs.156.67 million were processed through the manual payroll and accounted for 17.5 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.
6. Failure to budget for unspent cash balance from the previous financial year which amounted to Kshs.1.23 billion.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should ensure timely preparation and submission of financial reports to the Office of the Controller of Budget in line with Section 166 of the PFM Act, 2012.*
2. *The County should address its own source revenue performance to ensure the approved budget is fully financed.*
3. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
5. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment*
6. *The County Treasury should prepare a supplementary budget and ensure the unspent cash balances from the previous financial year are incorporated in the County Appropriations in order to regularise its spending.*

### 3.46.7 Expenditure on Compensation to Employees

Expenditure on compensation to employees of Kshs.615.49 million was 47.3 per cent of the period-realised revenue of Kshs.1.30 billion and included Kshs.235.96 million attributable to the health sector, which translated to 38.3 per cent of the total wage bill in the reporting period.

Sub-programmes with the highest levels of implementation based on absorption rates other than administrative services were: Human Resource Management and Development at 69.4 per cent, Audit Services at 30.4 per cent,

and ECD Development at 25 per cent of budget allocation. The report on budget execution by programmes and sub-programmes is based on the half budget which was opened in IFMIS for utilization and excluded the County Assembly.

### 3.46.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Weak budgeting practice as shown in Table 3-216, where the County incurred expenditure over approved exchequer issues in a number of departments.
2. High level of pending bills which amounted to Kshs.1.15 billion as of 30th September 2022. This is despite the availability of cash in the CRF which stood at Kshs.412.87 million at the end of the First Quarter of FY 2022/23.
3. Use of manual payroll. Personnel emoluments amounting to Kshs.161.42 million were processed through the manual payroll and accounted for 26.2 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds where there is a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The County Treasury should improve the Vote book and budgetary control to ensure that expenditure is within the approved budget. Further, all revenues should be banked in the CRF according to Section 109 (2) of the PFM Act, 2012.*
2. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
3. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate the engagement of staff on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

### 3.47.1 Overview of FY 2022/23 Budget

The County did not have an approved budget in the First Quarter of FY 2022/23. For approval, a draft budget estimate was tabled to County Assembly in September 2022. The draft budget amounted to Kshs.8.68 billion, comprising Kshs.3.37 billion (38.8 per cent) and Kshs.5.31 billion (61.2 per cent) allocation for development and recurrent programmes, respectively. The draft budget estimate is a decline of 6.2 per cent compared to the previous financial year when the approved budget was Kshs.9.25 billion and comprised of Kshs.4.02 billion towards development expenditure and Kshs.5.23 billion for recurrent expenditure.

To finance the budget, the County expects to receive Kshs.7.19 billion (82.8 per cent) as the equitable share of revenue raised nationally and generate Kshs.629.50 million (7.2 per cent) from its source of revenue. The County also expects to receive Kshs.867.98 million (10.0 per cent) as conditional grants, which consist of Kshs.298.66 million (3.4 per cent) as National Agricultural and Rural Inclusive Growth Project, Kshs.80.44 million (0.9 per cent) as Wajir Forming Health Systems for Universal Care Project, Kshs.12.76 million (0.1 per cent) as DANIDA Grant, Kshs.153.30 million (1.8 per cent) for Leasing of Medical Equipment, Kshs.21.53 million (0.2 per cent) as Agricultural Sector Development Support Programme II, Kshs.105.80 million (1.2 per cent) as Kenya Devolution Support Project (KDSP) “Levels 2 grants”, Kshs.50 million (0.6 per cent) as KISIP II, Kshs.145.50 million (1.7 per cent) as Financing Locally Led Climate Action.

### 3.47.3 Exchequer Issues

### 3.47.5 Settlement of Pending Bills

At the beginning of FY 2022/23, the County reported the stock of pending bills of Kshs.5.45 billion comprising Kshs.4.03 billion for development and Kshs.1.47 billion for recurrent. The figures are based on the Assumption of Office Committee report and will be subjected to verification to ascertain their authenticity. No pending bills were paid in the period.

### 3.47.6 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the OCOB identified the following challenges which hampered effective budget implementation;

1. Delay in passage of Appropriation Act. The county had not passed an appropriation Act nor a Vote on Account in the period.
2. Failure to approve a Vote on Account to facilitate essential services. The County did not pass a budget or a Vote-on-Account by the end of FY 2022/23
3. The underperformance of own-source revenue at Kshs.9.9 million against an annual projection of Kshs.100 million, representing 9.9 per cent of the yearly target.
4. The high level of pending bills amounted to Kshs.5.45 billion as of 30th September 2022, despite the availability of cash in the CRF, which stood at Kshs.2.29 billion at the end of the First Quarter of FY 2022/23.

The County should implement the following recommendations to improve budget execution;

1. *The County should ensure the timely passage of crucial budget documents to ensure the smooth provision of services to its citizens.*
2. *Where a budget is not passed in time, the county should ensure a Vote-on-Account is passed as per law to provide essential services during the budget period.*
3. *The County should address its source revenue performance to ensure the approved budget is fully financed.*
4. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*

### 3.48.7 Expenditure on Compensation to Employees

Regulation 25 (1) (b) of the Public Finance Management (County Governments) Regulations, 2015 sets a limit of the County Government's expenditure on wages and benefits at 35 per cent of the County's total revenue. Personnel emoluments amounting to Kshs.592.44 million were processed through the (Integrated Personnel and Payroll Database (IPPD) system, while those paid through manual payroll were Kshs.34.56 million. The manual payroll amounted to 5.5 per cent of the total P.E costs and is caused by delays in the allocation of Unified Payroll Numbers (UPN) to staff, recruitment on designations that do not conform to the scheme of service and the IPPD system, and employment of staff on short term contracts of less than 6 months. The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of UPN for their staff.

The County Assembly did not report any expenditure on committee sitting allowances for the 37 MCAs and the Speaker against the annual budget allocation of Kshs.31.79 million.

### 3.48.8 County Emergency Fund and County-Established Funds

Section 110 of the PFM Act 2012 establishes the Emergency Fund, while Section 116 of the PFM Act 2012 allows county governments to establish other public funds with approval from the County Executive Committee and the County Assembly.

The County allocated Kshs.854.69 million to county-established funds in FY 2022/23, constituting 11.4 per cent of the County's overall budget for the year. Table 3-221 summarises each established Fund's budget allocation and performance during the reporting period.

Sub-programmes with the highest levels of implementation based on absorption rates were: General Administration, planning and Support Services in the Department of Health and Sanitation at 24 per cent, General Administration, planning and Support Services in the Department of Finance and Economic Planning at 20 per cent, General Administration, planning and Support Services in the Department of Water, Environment and Natural Resources at 18 per cent, and General Administration, planning and Support Services at 16 per cent of their budget allocation.

### 3.48.13 Key Observations and Recommendations

In the course of overseeing and reporting on the implementation of the County budget, the COB identified the following challenges which hampered effective budget implementation;

5. Failure by Fund Administrators to submit quarterly financial and non-financial reports to the COB against the requirement of Section 168 of the PFM Act, 2012. The reports for the Bursary Fund and Cooperative Development Fund were not submitted to the Controller of Budget
6. High pending bills amounting to Kshs.132.13 million as of 30th September 2022, despite the availability of cash in the CRF, which stood at Kshs.554.52 million at the end of the First Quarter of FY 2022/23.
7. Use of manual payroll. Personnel emoluments amounting to Kshs.34.56 million were processed through the manual payroll and accounted for 5.5 per cent of the total payroll cost. The manual payroll is prone to abuse and may lead to the loss of public funds due to a lack of proper controls.

The County should implement the following recommendations to improve budget execution;

1. *The CECMF should follow up to ensure Fund Administrators prepare and submit statutory reports in line with the PFM Act, 2012.*
2. *The County leadership should take charge of the worsening pending bills situation to ensure genuine bills are paid without delay in the remaining period of the financial year.*
3. *The Government policy is that salaries should be processed through the IPPD system, and the County is advised to fast-track the acquisition of Unified Personnel Numbers for their staff. The County Public Service Board should regulate staff engagement on contract and casual workers as provided under Section 74 of the County Governments Act 2012. Further, there should be strict compliance with the approved staff establishment.*

## 4 KEY CHALLENGES AND RECOMMENDATIONS

### 4.1 Introduction

This section highlights cross-cutting issues that affected budget implementation in the First Quarter of FY 2022/23 and includes appropriate recommendations to address the challenges. The cross-cutting challenges were:

### 4.2 Under-performance in Own Source Revenue Collection

Article 209 (3) of the Constitution allows County Governments to impose property rates, entertainment taxes and any other tax that a county is authorised to charge by an Act of Parliament.

During the reporting period, the County Governments generated a total of Kshs.6.17 billion, which was 10.8 per cent of the annual target of Kshs.57.01 billion, against an expected performance of 25 per cent of the annual target in the First Quarter of FY 2022/23. The OCOB noted that forty-two counties recorded a performance that was below 25 per cent of the annual target. The underperformance of own-source revenue collection implies that some planned activities were not implemented during the financial year due to budget deficits.

The Controller of Budget advises county governments to build the capacity of key staff involved in revenue collection and implement revenue enhancement programmes to realise the OSR potential.

### 4.3 Low Expenditure on the Development Budget

Section 107(2) (b) of the Public Finance Management (PFM) Act, 2012, provides that over the medium term, a minimum of thirty per cent of the County Government's budget shall be spent on development programmes.

In the First Quarter of FY 2022/23, County Governments reported expenditures of Kshs.2.22 billion towards development activities, representing an absorption rate of 1.4 per cent of the cumulative annual development expenditure budget of Kshs.160.58 billion. Twenty-three counties did not report any expenditure on development activities during the period under review.

The Controller of Budget recommends that County Governments develop and implement strategies to enhance the utilisation of funds allocated for development activities in the remaining financial year period. Further, county governments should ensure that expenditure on development activities meets the minimum set ceiling of 30 per cent of their budgets.

### 4.4 High Level of Pending Bills

As of September 30, 2022, Counties reported pending bills amounting to Kshs.161.36 billion. These comprised of Kshs.127.38 billion for recurrent expenditure and Kshs.33.98 billion for development expenditure. Analysis of the pending bills shows that Nairobi City County accounted for 62.2 per cent of the pending bills at Kshs.100.36 billion. Other Counties with a high level of pending bills are Wajir, Kiambu at Kshs.4.81 billion and Mombasa at Kshs.4.51 billion.

County Governments are advised to settle the eligible pending bills as a first charge on the budget in line with Regulation 41 (2) of the Public Finance Management (County Governments) 2015, which states that "debt service payments shall be a first charge on the County Revenue Fund and the Accounting Officer shall ensure this is done to the extent possible so that the County government does not default on debt obligations". Further, Regulation 55(2) b of the Public Finance Management (County Governments) 2015 requires that the finalised and signed contracts be budgeted first before the accounting officer of the County government entity considers new projects.

#### **4.5 Delay by the National Treasury to Disburse the Equitable Share of revenue.**

County Governments were allocated Kshs.370 billion as the equitable share of revenue raised nationally to finance their budgets in the FY 2022/23. This allocation is contained in the County Allocation of Revenue Act, 2022. The disbursement of the equitable share of revenue raised nationally is expected to be per the Disbursement Schedule that provides for monthly transfers to County Governments by the National Treasury. As of September 30 2022, the National Treasury had disbursed a total of Kshs.40.74 billion as equitable share for the FY 2022/23 and Kshs.29.6 billion, which was arrears of equitable share from the previous financial year.

The amount disbursed by the National Treasury of Kshs.40.74 billion represented 11 per cent of the allocation for the FY 2022/23 of Kshs.370 billion. At the end of the First Quarter, counties had not received Kshs.20.31 billion, which was the allocation for August 2022. Failure by the National Treasury to release funds to County Governments affected budget implementation.

The National Treasury is therefore required to ensure that the disbursement of the equitable share of revenue to county governments is in line with the approved disbursement schedule to ensure effective budget implementation.

#### **4.6 Failure by Fund Administrators to Submit Quarterly Financial Statements to the Controller of Budget**

Section 168 of the PFM Act, 2012 requires Fund Administrators to prepare and submit quarterly financial statements for the fund. The quarterly financial statements should be submitted to the County Treasury with a copy to the Controller of Budget not later than fifteen days after the end of each quarter.

During the reporting period, it was observed that several Fund Administrators failed to submit the quarterly financial statements to the Controller of Budget within the legal timeline. In most counties, as shown in Chapter three of this report, Fund Administrators failed to furnish the OCOB with the quarterly reports on financial and non-financial information contrary to the requirement of Section 168 of the PFM Act, 2012.

The Controller of Budget advises the County Executive Committee Members responsible for finance in the counties to follow up and ensure Fund Administrators prepare and submit quarterly reports in line with the PFM Act, 2012.

This report sought to provide information on the status of budget implementation during the First Quarter of FY 2022/23 by County Governments. It was prepared in fulfilment of Article 228(6) of the Constitution of Kenya 2010 and Section 9 of the Controller of Budget Act, 2016.

In the First Quarter of FY 2022/23, the combined County governments' budgets approved by the County Assemblies amounted to Kshs.478.87 billion and comprised of Kshs.160.58 billion (33.5 per cent) allocated to development expenditure and Kshs.318.29 billion (66.5 per cent) for recurrent expenditure. The aggregate development expenditure allocation conforms to Section 107 (2(b)) of the PFM Act, 2012, which requires that at least 30 per cent of the budget be allocated for development programs. To finance the budgets, County governments expect to receive Kshs.370 billion as the equitable share of revenue raised nationally, generate Kshs.57.01 billion from their own revenue sources and utilize Kshs.22.51 billion cash balance from FY 2021/22. Further, Counties expect to receive Kshs.29.35 billion as conditional grants from the national government and development partners.

The total funds available to the County Governments in the First Quarter of FY 2022/23 amounted to Kshs.98.97 billion. This amount consisted of Kshs.70.34 billion as the equitable share of revenue raised nationally, Kshs.22.51 billion cash balance from FY 2021/22, and Kshs.6.17 billion raised from own sources. The disbursed equitable share of Kshs.70.34 billion, comprises of Kshs.29.6 billion as arrears of equitable shares from the previous financial year and Kshs.29.6 billion for the current financial year.

The total expenditure by County governments in the First Quarter of FY 2022/23 was Kshs.54.82 billion, representing an absorption rate of 11.4 per cent of the total annual County Government Budgets. This was an increase from an absorption rate of 10.5 per cent attained in a similar period of FY 2021/22, where total expenditure was Kshs.52.84 billion. Recurrent expenditure was Kshs.52.60 billion, representing 16.5 per cent of the annual recurrent budget, while development expenditure amounted to Kshs.2.22 billion, representing an absorption rate of 1.4 per cent.

The key challenges that hampered effective budget execution during the period were identified. They included; under-performance in own source revenue collection, low expenditure on the development budget, high level of pending bills, delay by the National Treasury to disburse the Equitable Share of revenue raised nationally to the counties, and failure by Fund Administrators to submit quarterly financial statements to the Controller of Budget. This report has provided appropriate recommendations on how to address the challenges to enhance the smooth execution of the budget in the remaining financial year period.
